

Exciting News - we're moving to a new employment tool!

Here's what you can expect:

- A simpler, more streamlined application process
- The ability to upload your resume and/or cover letter
- The ability to apply using your LinkedIn profile
- The ability to apply via mobile device
- An applicant profile page that will house communications, tasks and will let you easily see the status of your applications.

Here's when you can expect it:

- Our current tool will close as of May 5. After this date, you won't be able to access any application information you have submitted within the last year. If you have information from a current or previous application that you'd like to save or copy, you'll need to do so before May 5, as your current contact and resume information will not be transferred over.
- After **April 24**, you'll be able to use the link below to visit our welcome page and create a profile and upload a resume so you're ready to apply when jobs are posted on May 9. Click on *Connect With Us!* on the welcome page to create a profile and upload your resume.
- On **May 9**, when you click on **Go** from our careers pages, you'll be taken to the new tool, where you can search for open jobs and apply, create job alerts and refer others to our openings.

If you have an active application:

If you have recently applied, have completed pre-employment assessments or have been contacted by us for a current opening, there is nothing further you need to do for that opening unless you're contacted by a recruiter. The process will continue in our current tool.

Thank you for your interest in employment with State Farm!

Click [here](#) beginning April 24 to visit the new tool.
Open jobs will be available at this link **beginning May 9**.
