The State Farm® College Savings Plan
Supplement dated April 1, 2017 to
Enrollment Handbook and Participation Agreement dated April 22, 2016

This Supplement amends the Enrollment Handbook and Participation Agreement dated April 22, 2016, as supplemented on September 28, 2016 (the “Enrollment Handbook”). You should read this Supplement in conjunction with the Enrollment Handbook and retain it for future reference.

INVESTMENT PERFORMANCE

The following table replaces the table titled “Average Annual Total Returns (%),” beginning on page 13 of the Enrollment Handbook.

</table>

1. Performance is not load adjusted.
2. Reported performance for Class A units including Sales Charge is load adjusted based upon the current maximum 5.50% initial sales charge applied to the Portfolio’s net asset value at the beginning of the investment period, except the Money Market Portfolio, which has no sales charge.
3. Reported performance for Class B units including Sales Charge is load adjusted by applying the maximum 5.00% contingent deferred sales charge (“CDSC”) to the lesser of the Portfolio’s beginning or ending net asset value for the calculated period. Class B Units will convert to A Units after the eighth year.
4. Since Inception returns are annualized returns based upon a true day count and a 365-day/year calculation.
5. See “Customized Portfolio Performance Benchmarks” for a list of the Customized Portfolio Performance Benchmarks.
6. Investments in the Money Market Portfolio are neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. Although this Portfolio seeks to preserve the value of your investment at $1.00 per share, it is possible to lose money by investing in this Portfolio.
PLAN FEES AND EXPENSES

</table>

1. There is no guarantee that actual expenses will be the same as those shown in the table.
2. For Portfolios that invest in more than one Underlying Investment, based on a weighted average of each Underlying Investment’s expense ratio in accordance with the Portfolio’s target asset allocation among the applicable Underlying Investments as of December 31, 2016; and for Portfolios that invest in one Underlying Investment, based on the most recent expense ratio for the Underlying Investment as of December 31, 2016. Underlying Investment Expenses include investment advisory fees, which may be paid to the Servicing Agent or its affiliates, administrative and other expenses.
3. The Servicing Agent receives a fee of 0.15% and the Program Manager receives a fee of 0.02%.
4. The Nebraska State Treasurer receives a fee of 0.05% for administering and marketing the Plan and Trust.
5. This total is assessed against assets over the course of the year and does not include sales charges. See “Investment Cost Chart” for the approximate cost of investing in each of the Portfolios over 1-, 3-, 5- and 10-year periods.
6. Payable at the time of Contribution. Lower initial sales charges are available for larger aggregate Contributions. Waived for certain Account Owners. See "Initial Sales Charges" for more details. A maximum contingent deferred sales charge of 1.00% may be charged, and partially waived in limited circumstances, for Contributions not subject to an initial sales charge that are withdrawn, transferred or rolled over from an Account within 18 months of the Contribution. See “Contingent Deferred Sales Charges—Class A Units” for more details.
7. The Servicing Agent has voluntarily undertaken to waive its fees (but not below zero) and/or reimburse expenses to the extent necessary to assist the Money Market Portfolio in attempting to maintain at least a 0.00% return. There is no guarantee that the Money Market Portfolio will maintain this return. This undertaking may be amended or withdrawn at any time.

1. There is no guarantee that actual expenses will be the same as those shown in the table. Class B units automatically convert to Class A units after eight years. See “Contingent Deferred Sales Charges—Class B Units” for more details.

2. For Portfolios that invest in more than one Underlying Investment, based on a weighted average of each Underlying Investment’s expense ratio in accordance with the Portfolio’s target asset allocation among the applicable Underlying Investments as of December 31, 2016; and for Portfolios that invest in one Underlying Investment, based on the most recent expense ratio for the Underlying Investment as of December 31, 2016. Underlying Investment Expenses include investment advisory fees, which may be paid to the Servicing Agent or its affiliates, administrative and other expenses.

3. The Servicing Agent receives a fee of 0.15% and the Program Manager receives a fee of 0.02%.

4. The Nebraska State Treasurer receives a fee of 0.05% for administering and marketing the Plan and Trust.

5. This total is assessed against assets over the course of the year and does not include sales charges. See “Investment Cost Chart” for the approximate cost of investing in each of the Portfolios over 1-, 3-, 5- and 10-year periods.

6. Payable with respect to each Contribution if you direct a Withdrawal, transfer or rollover from your Account within six years of a Contribution. Partially waived in limited circumstances. See “Contingent Deferred Sales Charge—Class B Units” for more details.

7. The Servicing Agent has voluntarily undertaken to waive its fees (but not below zero) and/or reimburse expenses to the extent necessary to assist the Money Market Portfolio in attempting to maintain at least a 0.00% return. There is no guarantee that the Money Market Portfolio will maintain this return. This undertaking may be amended or withdrawn at any time.

1. Assumes conversion of Class B units to the lower Portfolio operating expenses of Class A units, which occurs on or about the end of the month which is at least eight years after the date on which the units were purchased.
2. This row reflects what you would pay if you were to redeem your units and incur the applicable CDSC charge.
The State Farm® College Savings Plan

Supplement dated September 28, 2016 to
Enrollment Handbook and Participation Agreement dated April 22, 2016

This Supplement amends the Enrollment Handbook and Participation Agreement dated April 22, 2016 (the “Enrollment Handbook”). You should read this Supplement in conjunction with the Enrollment Handbook and retain it for future reference.

ADDITIONAL INFORMATION REGARDING THE UNDERLYING INVESTMENTS

Oppenheimer Institutional Money Market Fund

Effective September 28, 2016 (the “Effective Date”), Oppenheimer Institutional Money Market Fund will change its name to Oppenheimer Institutional Government Money Market Fund in connection with its conversion to a “government money market fund” consistent with new federal regulations regarding money market funds. Accordingly as of the Effective Date, all references in the Enrollment Handbook to “Oppenheimer Institutional Money Market Fund” are revised to “Oppenheimer Institutional Government Money Market Fund.”

Effective September 28, 2016, the discussion of the investment objective, investment process and principal risks of Oppenheimer Institutional Money Market Fund appearing on pages 37-38 of the Enrollment Handbook is replaced with the following:

Oppenheimer Institutional Government Money Market Fund

Investment Objective

The Fund seeks income consistent with stability of principal.

Investment Process

The Fund is a money market fund that intends to qualify as a “government money market fund,” in connection with the amendments adopted by the U.S. Securities and Exchange Commission to Rule 2a-7 and other rules governing money market funds under the Investment Company Act of 1940, as amended. As a government money market fund, the Fund must invest at least 99.5% of its total assets in cash, government securities and/or repurchase agreements that are “collateralized fully” (i.e., backed by cash or government securities). The securities in which the Fund invests may have fixed, floating or variable interest rates. The Fund may also invest in affiliated and unaffiliated government money market funds. Additionally, as a government money market fund, the Fund is not required to impose a liquidity fee and/or temporary redemption gate if the Fund’s weekly liquid assets fall below 30% of its total assets. While the Fund’s Board may elect to subject the Fund to liquidity fee and gate requirements in the future, it has not elected to do so at this time.

Under normal market conditions, the Underlying Investment invests at least 80% of its net assets (plus borrowings, if any, for investment purposes) in government securities and repurchase agreements that are collateralized by government securities. The 80% investment policy is a nonfundamental investment policy and will not be changed without 60 days’ advance notice to shareholders.

Principal Risks

All investments carry risks to some degree. The Fund’s investments are subject to changes in their value from a number of factors. However, the Fund’s investments must meet the special rules under Federal law for money market funds. Those requirements include maintaining high credit quality, a short average maturity and diversification of the Fund’s investments among issuers. Those provisions are designed to help minimize credit risks, to reduce the effects of changes in prevailing interest rates and to reduce the effect on the Fund’s portfolio of a default by any one issuer. Since income on short-term securities tends to be lower than income on longer-term debt securities, the Fund’s yield will likely be lower than the yield on longer-term fixed-income funds. Even so, there are risks that an issuer of an obligation that the Fund holds might have its credit rating downgraded or might default on its obligations, or that interest rates might rise sharply, causing the value of the Fund’s investments to fall. Also, there is the risk that the value of your investment could be eroded over time by the effects of inflation, or that poor security selection could cause the Fund to underperform other funds that have a similar objective. If there is an unexpectedly high demand for the redemption of Fund shares, the Fund might need to sell portfolio securities prior to their maturity, possibly at a loss. As a result, there is a risk that the Fund’s shares could fall below $1.00 per share.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund’s sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.
The principal risks of investing in this Fund are: Risks of Money Market Instruments; Fixed-Income Market Risks; Government Securities Risks, Risks of Repurchase Agreements; Net Asset Value Risks; Risks Relating to Investments by Other Oppenheimer Funds; Yield Risk; Cash Risk; Regulatory Risk; Risks of Investing in Floating and Variable Rate Obligations and Large Shareholder Transaction Risk.

PRINCIPAL INVESTMENT RISKS OF THE UNDERLYING INVESTMENTS

In connection with the changes associated with Oppenheimer Institutional Money Market Fund, the following revisions are made to the section titled “Principal Investments Risks of the Underlying Investments,” beginning on page 38 of the Enrollment Handbook, as of the Effective Date:

Bank Obligations Risk is deleted in its entirety.

Regulatory Risk is revised as follows:

Regulatory Risk. In July 2014, the SEC adopted reforms to money market fund regulation, which, when implemented in October 2016, may affect the Fund’s operations and/or return potential.

Yield Risk is revised as follows:

Yield Risk. During periods of extremely low short-term interest rates, the Fund may not be able to maintain a positive yield. The rate of the Fund’s income will vary from day to day, generally reflecting changes in short-term interest rates and in the fixed-income securities market. There is no assurance that the Fund will achieve its investment objective.

The following risks are added to the section:

Government Securities Risk. The Fund invests in securities issued or guaranteed by the U.S. government or its agencies and instrumentalities (such as securities issued by the Government National Mortgage Association (“Ginnie Mae”), the Federal National Mortgage Association (“Fannie Mae”), or the Federal Home Loan Mortgage Corporation (“Freddie Mac”)). U.S. government securities are subject to market risk, interest rate risk and credit risk. U.S. government securities include zero coupon securities, which tend to be subject to greater market risk than interest-paying securities of similar maturities.

Cash Risk. As a government money market fund, the Fund will likely hold some of its assets in cash, which may negatively affect the Fund’s performance. Maintaining cash positions may also subject the Fund to additional risks and costs, such as increased exposure to the custodian bank holding the assets and any fees imposed for large cash balances.

Risk of Investing in Floating and Variable Rate Obligations. Some fixed income securities have variable or floating interest rates that provide for a periodic adjustment in the interest rate paid on the securities. The rate adjustment intervals may be regular and range from daily up to annually, or may be based on an event, such as a change in the stated prevailing market rate. Floating and variable rate securities may be subject to greater liquidity risk than other debt securities, meaning that there may be limitations on the Fund’s ability to sell the securities at any given time. Such securities also may lose value.

Large Shareholder Transactions Risk. Large transactions by shareholders can impact the Fund’s expense ratio, yield and potentially its net asset value. A large redemption of Fund shares by a large shareholder may have a negative effect on the Fund’s net asset value and yield, as the Fund may be forced to sell a large portion of its portfolio holdings at an inopportune time. A large redemption of Fund shares may also result in an increase in the Fund’s expense ratio, since a large redemption may result in the Fund’s current expenses being allocated over a smaller asset base. In order to be able to meet reasonably foreseeable requests for redemptions of Fund shares, the Fund may be required to consider factors that could affect the Fund’s liquidity needs, including characteristics of the Fund’s investors and their likely redemptions. This may require the Fund to maintain sufficiently liquid assets in lower-yielding securities that are easier to sell, which may have a negative impact on the Fund’s yield. Similarly, a large purchase of Fund shares by a large shareholder may have a negative effect on the Fund’s yield, as the Fund may be unable to deploy a larger cash position into new investments as quickly as it could with a smaller cash position. Large transactions may also increase transaction costs.
The State Farm® College Savings Plan
Sponsored by the State of Nebraska

Enrollment Handbook
&
Participation Agreement

April 22, 2016
PLAN HIGHLIGHTS
This section contains a summary of the key features of The State Farm College Savings Plan (the “Plan”). Please read the entire Enrollment Handbook and Participation Agreement carefully before you invest or send money and keep these documents for future reference. Additional copies may be obtained at statefarm.com.

Overview
The Plan is sponsored by the State of Nebraska and administered by the Nebraska State Treasurer. First National Bank of Omaha is the Program Manager pursuant to a contract that extends to December 17, 2017. OFI Private Investments Inc. is the Servicing Agent and OppenheimerFunds Distributor, Inc. is the sole distributor for the Plan pursuant to contracts that extended to November 2, 2013 and automatically renews for successive one-year periods unless terminated. State Farm offers classes of units of the Trust for sale pursuant to a contract that extends to October 1, 2018.

Minimum contribution
$250 per Account with subsequent investments of at least $50 per Portfolio (if an Account Owner elects to initiate an Automatic Investment Plan, the minimum initial contribution is $50 per Portfolio with subsequent investments of $50 per Portfolio). See “CONTRIBUTIONS” on page 4 for more details.

Maximum contribution per Designated Beneficiary
$360,000. See “Maximum Contribution Limit” on page 4 for details.

Eligible Account Owners
Any adult person with a valid Social Security number or an entity with a valid federal taxpayer identification number and United States address. See “The Application Process” on page 3 for details.

Eligible Designated Beneficiaries
Any individual who has a valid Social Security number. See “The Designated Beneficiary” on page 3 for details.

Age limitations for Account Owners
Must be of legal age to enter into a contract. See “The Application Process” on page 3 for details.

Federal income tax benefits
Federal income tax-deferred growth. Earnings on a Qualified Withdrawal are free from federal income tax. Earnings on a Nonqualified Withdrawal are subject to federal income tax and in most cases an additional 10% federal tax. Contributions are generally considered completed gifts for federal gift and estate tax purposes. See “FEDERAL AND STATE TAX CONSIDERATIONS” on page 28 for details.

Nebraska state income tax benefits
Nebraska state income tax-deferred growth. Earnings on a Qualified Withdrawal are free from Nebraska state income tax. Contributions by Account Owners before 2014 may be deductible up to $5,000 per tax return ($2,500 if married filing separately). These limits increased to $10,000 ($5,000 if married filing separately) on January 1, 2014. See “Certain Nebraska State Tax Consequences” on page 27 for details.

Use of withdrawn funds
Withdrawals used to pay for the Designated Beneficiary’s Qualified Higher Education Expenses constitute Qualified Withdrawals. See “FEDERAL AND STATE TAX CONSIDERATIONS” on page 26 for details.

Investment options
The Plan offers:
- Enrollment-based Portfolios (consists of 5 Portfolios that are assigned based on the number of years until the Designated Beneficiary is expected to attend college)
- 4 Static Portfolios
- Account Owners can change how previous Contributions (and any earnings thereon) have been allocated among the available investment options for all Nebraska 529 accounts registered to that Account Owner for the same Designated Beneficiary twice per calendar year or when the Account Owner requests a change of the Designated Beneficiary. See “INVESTMENT OPTIONS” on page 8 for details.

Investment Performance
Performance information for the Portfolios is updated at the end of each trading day on the Plan’s website at statefarm.com.

Past Performance is not a guarantee of future performance. Investment results may be better or worse than the performance shown.

See “INVESTMENT PERFORMANCE” on page 12 for details.
### Risk Factors

An investment in the Portfolios is subject to investment risks. You could lose money, including the principal you invest.

There is no guarantee or assurance that the investment objective of any Portfolio will be achieved or that you will have sufficient assets in your account to meet your Beneficiary's Qualified Higher Education Expenses or that your investment goals will be realized.

Portfolio asset allocation and investment guidelines, Underlying Investments, fees, and applicable federal or state tax laws may change from time to time.

Contributions to the Plan may adversely affect the eligibility of the Beneficiary or the Account Owner for financial aid or other state and federal tax benefits. See "Treatment for Federal, State, and Institutional Financial Aid Purposes" on page 28 for details.

The Enrollment Handbook contains a description of various risks associated with an investment in the Plan. See "CERTAIN RISKS TO CONSIDER" on page 25 for details.

IMPORTANT LEGAL INFORMATION

This Enrollment Handbook forms a part of, and is incorporated into, the Participation Agreement. This Enrollment Handbook includes the addenda and appendixes attached hereto.

The State Farm College Savings Plan (the "Plan") makes no representations regarding the suitability of the Plan's investment Portfolios for any particular investor. Other types of investments and other types of college savings vehicles may be more appropriate depending on your personal circumstances.

No person has been authorized to give any information or to make any representations other than those contained in this Enrollment Handbook, and, if given or made, such other information or representations must not be relied on as having been authorized by State Farm, OFI Private Investments Inc., OppenheimerFunds Distributor, Inc., First National Bank of Omaha, the Nebraska Educational Savings Plan Trust (the "Trust"), the State of Nebraska or any of their respective affiliates, directors, officers or agents.

The information in this Enrollment Handbook is subject to change without notice. Neither the delivery of this Enrollment Handbook nor the sale of any units in Portfolios of the Plan should be construed to imply that there has been no change in the affairs of the Plan or the Trust since the date of this document.

The Plan is offered through the Trust. Accounts in the Trust are offered and sold through several different distribution channels, including The State Farm College Savings Plan, the NEST Direct College Savings Plan, the NEST Advisor College Savings Plan, and the TD Ameritrade 529 College Savings Plan. This Enrollment Handbook describes only The State Farm College Savings Plan. The other plans in the Nebraska Educational Savings Plan Trust offer different investment options managed by different investment advisers and have different benefits, fees, withdrawal penalties, and sales commissions, if any, relative to the Accounts described in this Enrollment Handbook. You can obtain information regarding other plans in the Trust by contacting the Nebraska State Treasurer at 402-471-2455, or by visiting the Nebraska State Treasurer’s website at www.treasurer.nebraska.gov.

SECTION 529 QUALIFIED TUITION PROGRAMS ARE INTENDED TO BE USED ONLY TO SAVE FOR QUALIFIED HIGHER EDUCATION EXPENSES. THESE PROGRAMS ARE NOT INTENDED TO BE USED, NOR SHOULD THEY BE USED, BY ANY TAXPAYER FOR THE PURPOSE OF EVADING FEDERAL OR STATE TAXES OR TAX PENALTIES. TAXPAYERS MAY WISH TO SEEK TAX ADVICE FROM AN INDEPENDENT TAX ADVISOR BASED ON THEIR OWN PARTICULAR CIRCUMSTANCES.

Any tax information contained in this Enrollment Handbook is not intended to be used, and cannot be used by any taxpayer, for the purpose of avoiding penalties that may be imposed under the Internal Revenue Code. Any such information was written to support the promotion or marketing of the Plan. A taxpayer should seek advice based on the taxpayer’s particular circumstances from an independent, qualified tax advisor.

You should rely only on the information contained in this Enrollment Handbook. No one is authorized to provide information that is different from the information contained herein.

Information in this Enrollment Handbook is believed to be accurate as of the date of the Enrollment Handbook and is subject to change without notice.

Plan Accounts are not bank deposits, are not insured by the Federal Deposit Insurance Corporation or the National Credit Union Association, are not debt or obligations of, or guaranteed by, any bank or other financial institution or the Program Parties or any financial advisor or broker, and involve investment risk, including the possible loss of the principal amount invested.

For residents of states other than Nebraska: the consequences to an Account Owner or Designated Beneficiary of an investment in the Plan will vary from state to state. State tax features vary by Section 529 Plan and the Account Owner’s or the Designated Beneficiary’s home state may offer state tax benefits, including income tax deductions for contributions to their own state Section 529 Plans or exclusions from income, that are not available for contributions to the Plan. An Account Owner should consult a tax advisor to determine the availability of a state income, gift and estate tax deduction for his or her Section 529 Plan contributions.

Account Owners and Designated Beneficiaries do not have access or rights to any assets of the State of Nebraska or any assets of the Trust other than assets credited to the Account of that Account Owner for that Designated Beneficiary. (See “CERTAIN RISKS TO CONSIDER” on page 25 for details.)

Statements contained in this Enrollment Handbook or in the Participation Agreement, which involve estimates, forecasts or matters of opinion, whether or not expressly so described herein, are intended solely as such and are not to be construed as representations of facts. The information and expressions of opinion herein are subject to change without notice. Neither delivery of this Enrollment Handbook or the rest of the Participation Agreement, nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the Plan or the Trust since the date of this Enrollment Handbook.
This Enrollment Handbook is designed to comply with the College Savings Plans Network Disclosure Principles, Statement No. 5, adopted May 3, 2011.

THIS ENROLLMENT HANDBOOK DOES NOT CONSTITUTE AN OFFER TO SELL OR THE SOLICITATION OF AN OFFER TO BUY, NOR SHALL THERE BE ANY SALE OF SECURITIES BY ANY PERSON IN ANY JURISDICTION IN WHICH IT IS UNLAWFUL FOR SUCH PERSON TO MAKE SUCH OFFER, SOLICITATION OR SALE.

PRIVACY POLICY
Except as otherwise required by law, information regarding a Plan Account Owner or Beneficiary will not be shared with anyone other than the Account Owner, an authorized representative, or those employees and/or service providers who access such information to provide services to the Account Owner or Beneficiary.

BUSINESS CONTINUITY PLAN DISCLOSURE FOR STATE FARM VP MANAGEMENT CORP.
State Farm VP Management Corp. has developed a business continuity plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us—If you cannot contact us as you usually do at 1-800-447-4930, you should contact your registered State Farm Agent or go to our web site statefarm.com.

Our Business Continuity Plan—We plan to quickly recover and resume business operations as soon as possible after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm’s books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data backup and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and procedures to help ensure that our customers have prompt access to their funds and securities if we are unable to continue our business.

Our business continuity plan may be revised or amended. If changes are made, an updated summary will be promptly posted on our website statefarm.com or you may obtain an updated summary by calling us at the number below and requesting that a written copy be mailed to you.

Varying Disruptions—Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we may transfer our operations to a local site when needed and expect to recover and resume business within 1 business day. In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area, and expect to recover and resume business within 3 business days. In either situation, we plan to continue in business, transfer operations if necessary, and notify you through our web site statefarm.com, your registered State Farm Agent, or our customer number how to contact us. In the unlikely event that the significant business disruption is so severe that it prevents us from remaining in business, our plan provides procedures to help ensure that our customers have prompt access to their funds and securities.

For more information—If you have questions about our business continuity planning, you can contact us at 1-800-447-4930.

DEFINITIONS OF KEY TERMS

Set forth below are definitions of certain key terms used in this Enrollment Handbook. Other terms are defined elsewhere in this document.

**Account** means an account in the Plan established by an Account Owner pursuant to a Participation Agreement for purposes of investing in one or more Portfolios and saving for the Qualified Higher Education Expenses of the Designated Beneficiary.

**Account Owner** means the individual or entity establishing an Account. References in this document to “you” mean you in your capacity as the Account Owner.

**AIP** means an automatic investment plan.

**Code** means the Internal Revenue Code of 1986, as amended.

**Contribution** means an amount invested in an Account.

**Coverdell ESA** means a Coverdell Education Savings Account.

**Designated Beneficiary** means the individual whose Qualified Higher Education Expenses are expected to be paid from the Account or, for Accounts owned by a state or local government or qualifying tax-exempt organization (otherwise known as a 501(c)(3) entity) as part of its operation of a scholarship program, the recipient of a scholarship.

**EFT** means electronic funds transfer.

**Eligible Institutions of Higher Education** mean accredited post-secondary educational institutions offering credit toward a bachelor’s degree, an associate’s degree, a graduate level or professional degree, or another recognized post-secondary credential, which are eligible to participate in certain federal student financial aid programs. Certain proprietary institutions, foreign institutions and post-secondary vocational institutions are included, as are certain specified military academies.

**Enrollment-based Portfolio** means a Portfolio, the assets of which are invested in a combination of Underlying Investments in accordance with a target asset allocation specified for such Portfolio based on the number of years until the Designated Beneficiary is expected to attend college.

**Enrollment Handbook** means the then-current State Farm College Savings Plan Enrollment Handbook.

**IRS** means the Internal Revenue Service.

**In Good Order** In order to timely process any transaction in the Plan, all necessary documents must be in good order. Documents are in good order when they are fully, properly and accurately completed, executed (where necessary) and returned to the proper party for processing. For instance, in order for contributions to be received in good order, specific account information must be provided to the Servicing Agent. In the event that account information is missing, processing of the contribution may be delayed or the contribution may be returned to you.

**Interest** means the security issued by the Trust.

**Nonqualified Withdrawal** means a withdrawal from an Account that is not used to pay for Qualified Higher Education Expenses. The earnings portion of a Nonqualified Withdrawal will be treated as income to the distributee and taxed at the distributee’s tax rate. In addition, an additional 10% federal tax will apply to the earnings portion of a Nonqualified Withdrawal, unless an exception applies.

**Participation Agreement** means the contract between the Account Owner and the Trust.

**Plan** means The State Farm College Savings Plan.

**Plan Distributor** means OppenheimerFunds Distributor, Inc., which serves as Plan Distributor of the Plan.

**Portfolio** means a Plan portfolio, which invests in Underlying Investments.

**Program Manager** means First National Bank of Omaha, which serves as Program Manager of the Plan.

**Program Parties** means the State of Nebraska, the Nebraska State Treasurer, the Nebraska Investment Council, the Plan, the Trust, First National Bank of Omaha, OFI Private Investments Inc., OppenheimerFunds Distributor, Inc. and State Farm VP Management Corp.

**Qualified Higher Education Expenses** mean tuition, fees, room and board (while attending on at least a half-time basis), books, supplies and equipment required for the enrollment or attendance of a Designated Beneficiary at an Eligible Institution of Higher Education, as well as expenses for special needs services in the case of a special needs Designated Beneficiary who incurs such expenses in connection with enrollment or attendance at an Eligible Institution of Higher Education. Effective for taxable years beginning after December 31, 2014, Qualified Higher Education Expenses also include expenses for the purchase of computer and any related peripheral equipment, computer software, or Internet access and related services, if such equipment, software, or services are to be used primarily by the Designated Beneficiary during any of the years the Designated Beneficiary is enrolled at an Eligible Institution of Higher Education regardless of whether such technology or equipment is required by the Eligible Institution of Higher Education. Computer software means any program designed to cause a computer to perform a desired function. Such term does not include any database or similar item unless the database or item is in the public domain and is incidental to the operation of otherwise qualifying computer software. Computer software designed for sports, games, or hobbies is not included unless this software is predominantly educational in nature.

**Qualified Withdrawal** means a withdrawal from an Account that is used to pay the Qualified Higher Education Expenses of the Designated Beneficiary.

**Section 529 Plan** means a qualified tuition program established under and operated in accordance with Code Section 529.
Servicing Agent means OFI Private Investments Inc., which serves as Servicing Agent of the Plan and provides investment management services to the Plan.

State Farm Registered Representative means a State Farm VP Management Corp. Registered Representative through whom units of the Plan may be purchased.

Static Portfolio means a Portfolio, the assets of which are invested in a combination of Underlying Investments in accordance with a target asset allocation specified for such Portfolio, in which the Portfolio’s investment remains the same and does not change based on the age of the Designated Beneficiary.

Successor Account Owner means the person or entity designated by the Account Owner to assume ownership of the Account in the event of the Account Owner’s death or legal incapacity while there is still money in the Account.

Trust means the Nebraska Educational Savings Plan Trust.

Trustee means the Nebraska State Treasurer who is the trustee of the Trust.

UGMA/UTMA means the Uniform Gifts to Minors Act or Uniform Transfers to Minors Act.

Underlying Investments are collectively, the registered mutual funds in which the Trust invests.

INTRODUCTION

The Plan is sponsored by the State of Nebraska and administered by the Nebraska State Treasurer as part of the Trust. The Trust includes (a) the Plan as described in this Enrollment Handbook, (b) the NEST Direct College Savings Plan and the NEST Advisor College Savings Plan, and (c) the TD Ameritrade 529 College Savings Plan. State Farm only sells units in the Plan. The other plans within the Trust have different investment options with different investment advisers, sales charges, fees and expenses or other features. This Enrollment Handbook addresses only the Plan and not any other plan within the Trust. For more information on the other plans within the Trust, you can contact the Nebraska State Treasurer at 402-471-2455, or by visiting the Nebraska State Treasurer’s website at www.treasurer.nebraska.gov.

The Plan is designed to operate in accordance with Code Section 529 and promote savings for Qualified Higher Education Expenses. Federal tax benefits that are afforded under Code Section 529, and potential state tax benefits, enhance the value of investing in the Plan. Some states offer favorable tax treatment and/or other benefits to their residents only if they invest in the state’s own Section 529 plan. You should consult with your tax advisor to determine the state tax consequences of participating in the Plan.

The Plan provides Account Owners with the opportunity to help save for Qualified Higher Education Expenses in a tax-advantaged manner and to invest through the approach that best suits the Account Owner.

The Nebraska State Treasurer acts as trustee for the Trust and is responsible for the overall administration of the Plan. The Nebraska Investment Council is responsible for the investment of money in the Trust and the selection of all investment options.

The Internal Revenue Service (“IRS”) has issued proposed regulations under Code Section 529, but has not yet issued final regulations thereunder. Additionally, the proposed regulations do not reflect changes made to Code Section 529 or guidance issued by the IRS since their promulgation. The Plan as described in this Enrollment Handbook is operated so as to comply with Code Section 529 as currently in effect. However, the Plan’s operations may need to be modified to comply with final regulations, when issued, and such final regulations may alter the tax treatment of Account Owners and Designated Beneficiaries as discussed herein. When considering an investment in the Plan, you should be aware that the laws affecting your investment may change or expire while your Account is open. (See “Federal Gift, Estate and Generation-Skipping Transfer Taxes” on page 29 and “Risks Related to Possible Future Changes in State and Federal Tax Law” on page 26 for details.)

The rate of return on Accounts, if any, may be less than the rate of increase in the costs of Qualified Higher Education Expenses over the same period. There are no performance guarantees with the Plan and the value of your Account may fluctuate over time. Investments under the Plan are not guaranteed or insured by the Federal Deposit Insurance Corporation or other governmental agency, or by the Program Parties or any other entity. No one can predict the returns from the Portfolios, or the Underlying Investment in which the Portfolios invest. Past performance of any Portfolio or Underlying Investment is no guarantee of future results.

Service Providers

As Program Manager, First National Bank of Omaha provides administrative services to the Plan under a contract that extends to December 17, 2017. Prior to close of business on December 17, 2010, the Nebraska State Treasurer, as Trustee for the Nebraska Educational Savings Plan Trust, and the State Investment Officer, on behalf of the Nebraska Investment Council, operated the Plan with a different program manager.

OppenheimerFunds Distributor, Inc. is the Plan’s sole distributor under a contract that extended to November 2, 2013 and automatically renews for successive one-year periods unless terminated.

OFI Private Investments Inc. and certain of its affiliates provide investment management, administrative, transfer agency, recordkeeping and related services to the Plan under a contract that extended to November 2, 2013 and automatically renews for successive one-year periods unless terminated.

State Farm VP Management Corp. (“State Farm”) does not provide investment management services to the Plan. State Farm offers classes of units of the Trust for sale pursuant to a contract that extends to
October 1, 2018 and is a separate entity from those State Farm entities which provide banking products and insurance products.

**The Application Process**

The Account Owner may be a person at least 18 years of age with a valid Social Security number, or a state or local government, a tax-exempt organization described in Code Section 501(c)(3), or another type of legal entity, such as a trust or a corporation, with a valid federal taxpayer identification number. Account Owners must have a valid United States address. Accounts may also be established by UGMA/UTMA custodians. To open an Account, the Account Owner must complete and sign an Enrollment Application and any other documents required by the Trustee, the Servicing Agent or State Farm. Completed Enrollment Applications must be sent to the State Farm Registered Representative through whom the Account is opened. At the time of enrollment, the Account Owner (other than state or local governments or tax-exempt organizations described in Code Section 501(c)(3)) must designate a Designated Beneficiary for the Account.

**The Designated Beneficiary**

There may be only one Account Owner and one Designated Beneficiary per Account. The Designated Beneficiary must have a valid social security number, but is not required to be related to the Account Owner. An Account Owner may have one Account for the same Designated Beneficiary or multiple Accounts with different Designated Beneficiaries within the Plan. Also, different Account Owners may have Accounts for a single Designated Beneficiary within the Plan.

**Control of the Account**

The Account and all rights under the Participation Agreement belong to you as Account Owner and not to the Designated Beneficiary. You retain control of how and when Account assets are used. You may change the Designated Beneficiary if the proposed Designated Beneficiary is a Member of the Family of the current Designated Beneficiary to be replaced. See “Member of the Family” on page 23 for details. See “UGMA/UTMA Custodial Accounts” below for a discussion of the treatment of Accounts established by UGMA/UTMA custodians. You may also take Nonqualified Withdrawals, subject to federal and state income taxes on earnings and an additional 10% federal tax on earnings.

**INVESTMENTS IN THE PLAN**

Your Account represents an investment in a security issued by the Trust (an “Interest”), and this Interest is being distributed by the Plan Distributor and sold to Account Owners by State Farm Registered Representatives. Neither the plan nor the Account is a mutual fund, and you do not own shares in the Underlying Investments held in the Portfolios.

Investors should consider the structure of the Plan and the different investment strategies employed by and risks of each Portfolio before opening an Account.

**THESE SECURITIES HAVE NOT BEEN REGISTERED WITH THE U.S. SECURITIES AND EXCHANGE COMMISSION, OR WITH ANY STATE SECURITIES COMMISSIONS.**

**UGMA/UTMA Custodial Accounts**

A custodian of an Account established or being opened under a state’s UGMA/UTMA may be able to open an Account in his or her custodial capacity, depending on the laws of that state. The custodian will assume account owner responsibilities until the Designated Beneficiary reaches the age of majority under the applicable UGMA/UTMA statute, at which point the Designated Beneficiary will assume account owner responsibilities. These types of Accounts involve additional restrictions that do not apply to other types of Section 529 Plan accounts. A custodian using UGMA/UTMA funds to establish an Account must indicate that the Account is custodial by checking the appropriate box on the Enrollment Application. None of the Program Parties will be liable for any consequences related to a custodian’s improper use, transfer or characterization of custodial funds. UGMA/UTMA custodians must establish Accounts in their custodial capacity separate from any Accounts they may hold in their individual capacity in order to contribute UGMA/UTMA property to an Account. The Designated Beneficiary of an Account under the UGMA/UTMA is the owner of the Account. (See “FEDERAL AND STATE TAX CONSIDERATIONS” on page 26 for details regarding federal and state tax consequences associated with UGMA/UTMA accounts).

In general, UGMA/UTMA Custodial Accounts are subject to the following additional requirements and restrictions:

- The UGMA/UTMA custodian will be permitted to make withdrawals only in accordance with the rules applicable to withdrawals under the applicable UGMA/UTMA and the Plan.
- When the custodianship terminates and the Designated Beneficiary is legally entitled to take control of the Account, the Designated Beneficiary will become the registered Account Owner and will become subject to the provisions of the Plan applicable to non-UGMA/UTMA Account Owners. Before the Designated Beneficiary will be permitted to transact business with respect to the Account, he or she will be required to execute a new Enrollment Application, accepting the terms of the then-current Enrollment Handbook and Participation Agreement.
- An individual maintaining an Account as a UGMA/UTMA custodian may not change the Account Owner or Designated Beneficiary of the Account or transfer assets to another Designated Beneficiary, except as permitted by applicable law.

A custodian can be changed on a custodial account by providing supporting documentation in writing from the current custodian or submitting a valid court order appointing another person as the custodian. The new custodian must complete an Enrollment Application.

All UGMA/UTMA Account assets are treated by the Plan as subject to the UGMA/UTMA. Moreover, because only Contributions made in “cash form” via check or ACH may be used to open an Account in the Plan,
non-cash assets held by an UGMA/UTMA account will have to be liquidated, resulting in a taxable event to the Designated Beneficiary. Please consult a tax professional to determine how to transfer an existing UGMA/UTMA account, and what the implications of such a transfer may be for your specific situation. Custodians for minors under the UGMA/UTMA may open Accounts which are subject to additional limitations, such as the inability to change the Designated Beneficiary and certain restrictions on withdrawals.

Personal Information

Establishment of an Account is subject to acceptance by the Servicing Agent, including the verification of an Account Owner’s identity and other information in compliance with the requirements of the USA PATRIOT Act and other applicable law. If an Account Owner does not provide the information as requested on the Enrollment Application, the Servicing Agent may refuse to open an Account for the Account Owner. If reasonable efforts to verify this information are unsuccessful, the Servicing Agent may take certain actions regarding the Account without prior notice to the Account Owner, including among others, rejecting Contributions and withdrawal and transfer requests, suspending Account services or closing the Account. Units redeemed as a result of closing an Account will be valued at the units’ net asset value ("NAV") next calculated after the Servicing Agent closes the Account. The risk of market loss, tax implications and any other expenses, as a result of the liquidation, will be solely the Account Owner’s responsibility.

Allocation of Contributions

At the time of enrollment, the Account Owner must choose the initial Portfolio(s) for the Account and, if two or more Portfolios are chosen, the allocation of the initial Contribution among them. Subsequent Contributions will also be invested in selected Portfolio(s), according to a designated allocation, until the Account Owner instructs the Servicing Agent otherwise, by making a new Portfolio selection and/or designating a new allocation, with respect to new Contributions. Although Account Owners may choose to invest new Contributions in any of the Plan’s Portfolios, they may only change how previous Contributions (and any earnings thereon) have been allocated among the available Portfolio options for all Accounts registered to that Account Owner for the same Designated Beneficiary twice per calendar year or upon a change of the Designated Beneficiary.

Contributions

Account Owners making an initial Contribution by check must send a minimum initial Contribution of at least $250 with their Enrollment Application to the State Farm Registered Representative through whom the Account is opened or to the Servicing Agent. An initial Contribution of $250 ($50, if an Account Owner is electing to initiate an AIP) may also be made via ACH if banking instructions are provided in good order on the Enrollment Application.

Your Contributions, if received In Good Order by the Servicing Agent prior to the close of the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, will be processed on the same business day, or on the next succeeding business day if the transaction request is received after the close of the NYSE or on a day the NYSE is closed. Contributions will be credited to your Account only if the documentation received from you is complete and correct and the contribution satisfies the requirements set forth both in the Participation Agreement and in this Enrollment Handbook. The Portfolios are priced based on the price in effect for the Underlying Investments at the close of the NYSE (generally 4:00 p.m. Eastern Time) on the date the Contribution is processed and credited to your account.

A Contribution, rollover or transfer may be refused if the Trustee or the Servicing Agent reasonably believes that (i) the purpose is for other than funding the Qualified Higher Education Expenses of the Designated Beneficiary of an Account, (ii) there appears to be an abuse of the Plan, or (iii) such transaction is unlawful. The Plan may not be able to determine that a specific Contribution, rollover or transfer is for other than funding the Qualified Higher Education Expenses of a Designated Beneficiary, abusive or unlawful. The Plan therefore makes no representation that all such Contributions, rollovers or transfers can or will be rejected.

Third-party Contributions

Individuals (including the Designated Beneficiary) or entities who are not the Account Owner may make Contributions to an Account; however, the Account Owner will retain control over the Account (including the ability to make withdrawals) and will have control over the monies contributed by such third-party contributors. Such Contributions may have gift or other tax consequences. (See “Federal Gift, Estate and Generation-Skipping Transfer Taxes” on page 29 for details.)

Minimum Initial Contributions

The required minimum initial Contribution to an Account is $250 per Account.

Subsequent payments into your Account thereafter may be as low as $50 per Portfolio.

The minimum initial Contribution is waived for Accounts to which Contributions are made through an automatic investment plan (“AIP”) provided that the $50 monthly minimum Contribution per Portfolio is met.

In all cases, the minimum additional Contribution is $50 per Portfolio.

Maximum Contribution Limit

Contributions to an Account will be permitted if the aggregate balance, including the proposed Contribution amount, of all Trust accounts (including Plan Accounts) for the same Designated Beneficiary does not exceed $360,000, regardless of Account Owner. Pursuant to Code Section 529, the Trustee sets the maximum Account balance limit. The Trustee expects to evaluate the maximum Account balance limit periodically. Accounts that have reached the maximum Account balance limit may continue to increase in value depending on market fluctuation. While not now expected, it is possible that federal tax law might impose different limits on maximum Account balances in the future.
Excess Contributions
The Servicing Agent may return all or any part of a Contribution, rollover or transfer that would cause the market value of the Accounts held on behalf of a particular Designated Beneficiary in the aggregate to exceed the maximum Account balance limit ("Excess Contribution"). If a contribution is applied to an Account and it is later determined that the contribution resulted in exceeding the maximum Account balance limit, the excess contribution will be refunded to the contributor. Any refund of an excess contribution may be treated as a Nonqualified Withdrawal.

Methods of Contribution
Contributions must be made in "cash form" by personal check, cashier's check, AIP, EFT, payroll deduction or federal funds wire. No securities or money orders will be accepted. Third-party checks will only be accepted at the Plan Distributor's or Servicing Agent's discretion. Transfers from UGMA/UTMA accounts, Coverdell ESAs or accounts in another Section 529 plan will be accepted. Account Owners making an initial Contribution by check must send at least the minimum initial Contribution with their Enrollment Application to the State Farm Registered Representative through whom the Account is opened or to the Servicing Agent. The check must be made payable to "The State Farm College Savings Plan."

Automatic Investment Plan (AIP)
Account Owners may authorize the Plan to perform periodic automatic debits from a checking or savings account at another financial institution to execute Contributions to their Accounts. To initiate an AIP, Account Owners must either (i) complete the Automatic Investment Plan section of the Enrollment Application and submit a voided bank check or preprinted savings account deposit slip, or (ii) (if the Account has been established) submit to the Servicing Agent an Account Maintenance Form and a voided bank check or preprinted savings account deposit slip or (iii) complete the applicable section online at statefarm.com. Automatic Contributions must be at least $50 per Portfolio. An authorization to perform automatic periodic Contributions will remain in effect until the Servicing Agent has received notification of its termination. Changes to, or termination of, an AIP must occur at least five business days before the cycle date. The cycle date is the day of the month you designate on which the investment is regularly scheduled to occur. Normally, the debit will be made two business days prior to the cycle dates you selected. If no date is indicated, the cycle date will be made on the 10th of the month. Account Owners or the Plan may terminate enrollment in the Plan's AIP at any time. There is no charge for enrolling in the Plan's AIP. Use of AIP does not assure either a profit or protect against a loss in a declining market. Information about the Plan's AIP is available from your State Farm Registered Representative or the Servicing Agent. Please contact the Servicing Agent for details if you wish to set up an AIP from a third party bank account.

Electronic Funds Transfer (EFT)
To activate this option, an Account Owner must either (i) select it on the Enrollment Application and submit a voided bank check or provide documentation on bank letterhead and signed by a bank representative in his or her official capacity identifying the bank account owner(s), account number, account type and routing number, or (ii) (if the Account has been established) submit an Account Maintenance Form to the Plan and a voided bank check or provide documentation on bank letterhead and signed by a bank representative in their official capacity identifying the bank account owner(s), account number, account type and routing number.

Payroll Deduction
An Account Owner may make an automatic periodic Contribution to his or her Account(s) by an electronic transfer in connection with a payroll deduction relationship between the Account Owner and the Account Owner's employer, if their employer offers such a service and is able to meet the Plan Distributor's operational and administrative requirements. You should verify with your employer that it is willing to process Contributions through payroll direct deposit. Contributions by payroll deduction will only be permitted through employers able to meet the Plan's operational and administrative requirements for Section 529 Plan payroll Contributions.

Plan Transfers for the Account of a New Designated Beneficiary
An Account Owner may make a transfer within the Plan to an Account for the benefit of a new Designated Beneficiary without imposition of federal income tax or the additional 10% federal tax on earnings, if such transfer is made either directly or within 60 days of distribution from the originating Account into an Account for a new Designated Beneficiary who is a Member of the Family of the existing Designated Beneficiary.

Plan Transfers for the Same Designated Beneficiary
An Account Owner may make a transfer within the Plan for the benefit of the same Designated Beneficiary. If the funds are transferred directly between Portfolios, the transfer will be treated as a nontaxable investment reallocation allowable only twice per calendar year rather than as a tax-free rollover or transfer. However, if an Account Owner takes a distribution (i.e., receives a withdrawal check from the transferring Account), the withdrawal will be treated as a Nonqualified Withdrawal subject to federal and applicable state income tax and the additional 10% federal tax on earnings (even if the amount is subsequently redeposited).

Transfer into a Plan Account from Another Plan Within the Trust for the Benefit of a New Designated Beneficiary
An Account Owner may make a transfer to a Plan Account with funds from an account in another plan within the Trust for the benefit of a new Designated Beneficiary without imposition of federal income tax or the additional 10% federal tax on earnings, if such transfer is made either directly or within sixty (60) days of distribution from the originating account into an Account for a new Designated Beneficiary who is a Member of the Family of the existing Designated Beneficiary.
Transfer into a Plan Account from Another Plan Within the Trust for the Benefit of the Same Designated Beneficiary

A direct transfer into a Plan Account from an account in another plan within the Trust for the benefit of the same Designated Beneficiary will be treated as a nontaxable investment reallocation allowable only twice per calendar year rather than as a tax-free rollover or transfer. However, if an Account Owner takes a distribution (i.e., receives a withdrawal check from the transferring Account), the withdrawal will be treated as a Nonqualified Withdrawal subject to federal and applicable state income tax and the additional 10% federal tax on earnings (even if the amount is subsequently redeposited).

Rollovers from Another State’s Section 529 Plan

An Account Owner may roll over all or part of the balance of an account in another state’s Section 529 plan to an Account in the Plan without subjecting the rollover amount to federal income tax if the rollover is for (i) a new Designated Beneficiary who is a Member of the Family of the current Designated Beneficiary, or (ii) the same Designated Beneficiary and does not occur within 12 months from the date of a previous rollover to a qualified tuition program for the same Designated Beneficiary. (See “Federal Income Tax Treatment of the Trust, Contributions and Withdrawals” on page 28 for details.)

Account Owners who are Nebraska state taxpayers who rollover funds into the Plan may be eligible for a Nebraska state tax deduction. See “Certain Nebraska State Tax Consequences” on page 29 for more details.

Rollovers from Coverdell ESAs and Series EE and Series I Bonds

Tax-free rollovers into a Plan Account may be made from a Coverdell ESA or in connection with the redemption of Series EE or Series I U.S. savings bonds under certain circumstances. (See “Federal Income Tax Treatment of the Trust, Contributions and Withdrawals” on page 28 for details.)

REQUIRED INFORMATION UPON CERTAIN CONTRIBUTIONS TO THE PLAN

When making a Contribution to an Account through a transfer from a Coverdell ESA, a redemption of Series EE and Series I bonds, a rollover from another Section 529 Plan or a transfer from another plan within the Trust, the contributor must indicate the source of the Contribution and provide the Servicing Agent with the following documentation, as applicable:

- In the case of a Contribution from a Coverdell ESA, an account statement issued by the financial institution that acted as custodian of the Coverdell ESA that shows basis and earnings in the Coverdell ESA

- In the case of a Contribution from the redemption of a Series EE or Series I bond, an account statement or Form 1099-INT issued by the financial institution that processed the bond redemption showing interest from the redemption of the bond

- In the case of a rollover Contribution from another state’s Section 529 plan, a statement issued by the distributing plan that shows the earnings portion of the distribution. In the case of any direct transfer from another plan within the Trust, the distributing plan must provide the Plan a statement that shows the earnings portion of the distribution

Unless and until the Servicing Agent receives the documentation described above, as applicable, the Plan will treat the entire amount of the Contribution as earnings in the Account upon receiving the distribution.

CONTRIBUTION POLICIES AND RELATED FEES

Following receipt of Contributions by check or by transfer of funds electronically, the Plan reserves the right, subject to applicable law, to prohibit withdrawals of those funds (or their equivalent) for up to five business days. The Servicing Agent or the State Farm Registered Representative through whom the Account is opened can explain this policy to you.

Account Transactions

Transaction requests (Contributions to Accounts, withdrawal requests, and exchanges among Portfolios) received in Good Order by the Servicing Agent prior to the close of the NYSE, normally 4:00 p.m. Eastern time, will be processed on the same business day, or on the next succeeding business day if the transaction request is received after the close of the NYSE or on a day the NYSE is closed. Excess Contributions will not be invested. Notwithstanding the above, AIP and EFT Contributions will be processed on the business day the bank debit occurs. All dividends and distributions paid by the Underlying Investments in which the Portfolios invest will be reinvested in the applicable Underlying Investments and will not be paid directly to each Account Owner.

Confirmations, Statements and Reporting

Confirmations will be provided, either via mail or electronic delivery if elected by the Account Owner, for any activity in an Account, except for Contributions made through the AIP, Systematic Exchange Feature (described below) or Systematic Withdrawal (defined below). Account Owners will receive quarterly statements. Duplicate copies of your confirmations and Account statements will be provided to your State Farm Registered Representative or an interested party. An Account Owner has 60 days to notify the Servicing Agent of any errors on any Account confirmation, statement or report.

Account Owners can securely access and manage their Account information—including quarterly statements, confirmations and tax forms—24 hours a day at sfcollagesavingsplan.com once an online user ID and password has been created. If an Account Owner opens an Account online, the Plan requires a user ID and password to be selected right away. If an Account Owner opens an Account by submitting a paper application, a user ID and password may be established at sfcollagesavingsplan.com.
Protecting Your Account

The Plan uses reasonable procedures to confirm that transaction requests are genuine. The Account Owner may be responsible for losses resulting from fraudulent or unauthorized instructions received by the Servicing Agent provided the Servicing Agent reasonably believes the instructions were genuine. To safeguard your Account, please keep your Account information confidential. Contact the Servicing Agent immediately if you believe there is a discrepancy between a transaction you performed and the confirmation statement you received, or if you believe someone has obtained unauthorized access to your Account.

Systematic Exchange Feature

The Plan allows Account Owners the ability to invest Contributions in the Plan and take advantage of dollar cost averaging via periodic Systematic Exchanges. Account Owners may choose an originating Portfolio and designate a destination Portfolio into which specified dollar amounts (a minimum of $50 per Portfolio) will be transferred on a monthly, quarterly or annual basis. Account Owners must have at least $1,000 in the originating Portfolio to start the Systematic Exchange Feature. An election to invest previously allocated Contributions pursuant to the Plan’s Systematic Exchange Feature or discontinuing the Systematic Exchange Feature or changing the destination Portfolios will be considered an Account reallocation subject to the twice per calendar year limitation, if it applies to funds in the originating Portfolio which were previously subject to the election.

Ownership of Account Assets

Any individual (including the Designated Beneficiary) or entity may make Contributions to an Account. Only the Account Owner will receive confirmation of Account transactions. The Account Owner owns all Contributions made to an Account as well as all earnings credited to the Account. Individuals (such as the Designated Beneficiary) or entities other than the Account Owner that contribute funds to an Account will have no subsequent control over the Contributions. Only the Account Owner may direct transfers, rollovers, investment changes (as permitted under federal law), withdrawals and changes in the Designated Beneficiary. See “UGMA/UTMA Custodial Accounts” on page 3 for a discussion of the treatment of Accounts established by UGMA/UTMA custodians. The Designated Beneficiary has no control over the assets of the Account and may not direct withdrawals from the Account, unless he or she is also the Account Owner.

Certain Transfers Prohibited

No Account may be used as collateral for any purpose by an Account Owner or a Designated Beneficiary, including collateral for any loan. Any attempted use of an Account as collateral is void.

An Account Owner may not assign or transfer any Interest in any Account (except through a change in Account Owner or Designated Beneficiary in accordance with the Plan’s rules). Any attempted assignment or transfer of such an Interest in violation of this provision is void. No interest in an Account or any portion thereof shall be used as security for a loan.

No Assignments or Pledges

Neither an Account nor any portion thereof may be assigned, transferred or pledged as security for a loan (including, but not limited to, a loan used to make Contributions to the Account) or otherwise either by the Account Owner or by the Designated Beneficiary. Any pledge of an interest in an Account will be of no force or effect.

Bankruptcy and Related Matters

Federal bankruptcy law provides that Contributions to an Account that are made within 365 days of the filing of a bankruptcy petition by an Account Owner are part of the Account Owner’s bankruptcy estate, and thus available to creditors.

Contributions to all Accounts for a single Designated Beneficiary made between 365 days and 720 days before the filing of a bankruptcy petition by an Account Owner are not considered part of the Account Owner’s bankruptcy estate to the extent the aggregate of such Contributions does not exceed $5,850 (or $6,225, effective April 1, 2013), and thus such Contributions that do not exceed $5,850 (or $6,225, effective April 1, 2013) are not available to creditors (this figure is subject to a periodic adjustment for inflation); provided that (i) such Contributions do not exceed the Plan’s maximum Account balance limit, and (ii) the Designated Beneficiary of such Accounts is a child, stepchild, grandchild or step grandchild of the Account Owner (a legally adopted child or a foster child of an Account Owner is treated as a child of such Account Owner by blood).

All Contributions to all Accounts for a single Designated Beneficiary made at least 720 days before the filing of a bankruptcy petition by an Account Owner are not considered part of the Account Owner’s bankruptcy estate, and thus are not generally available to creditors; provided that (i) such Contributions do not exceed the Plan’s maximum Account balance limit, and (ii) the Designated Beneficiary of such Accounts is a child, stepchild, grandchild or step grandchild of the Account Owner (a legally adopted child or a foster child of an Account Owner is treated as a child of such Account Owner by blood).

An Account Owner filing a bankruptcy petition must report to the bankruptcy court any interest that the Account Owner has in a Section 529 Plan.

Nebraska Law

The legislation establishing the Trust is to be interpreted in accordance with Nebraska law. Such legislation generally provides that any amount credited to an Account is not susceptible to any levy, execution, judgment or other operation of law, garnishment or other judicial enforcement, and that such amount is not an asset or property of either the Designated Beneficiary or the Account Owner for purposes of any State insolvency or inheritance tax laws.

As of the date of this Enrollment Handbook, courts have yet to interpret, apply or rule on matters involving an interpretation of such legislation. Neither the Trust, the Nebraska State Treasurer, the Investment Council, the Nebraska State Investment Officer, State Farm, the Servicing Agent or the Program Manager make any representations or
warranties regarding protection from creditors. You should consult your legal advisor regarding this law and your circumstances.

Other State Law

The state law for Account Owners who are not Nebraska residents may offer creditor protections. Such state law creditor protections may not be enforceable or available to exempt an Account Owner's interest in an Account in such Account Owner's federal bankruptcy proceedings. None of the Program Parties makes any representations or warranties regarding protection from creditors. You should consult a legal advisor regarding state creditor protection law, federal bankruptcy law and your particular circumstances.

Successor Account Owner

An Account Owner may designate a Successor Account Owner to succeed to all of the current Account Owner's rights, titles and interest in an Account (including the right to change the Designated Beneficiary) upon the death or legal incapacity of the current Account Owner. Such designation must either be on the original Enrollment Application or submitted in writing to the Servicing Agent and is not effective until it is received and processed by the Servicing Agent. The Successor Account Owner will be required to provide the Servicing Agent with a copy of a death certificate in the case of the death of the Account Owner or an acceptable medical authorization or court order in the case of the incapacity of the Account Owner and such other information as the Servicing Agent requires prior to taking any action regarding the Account. See “UGMA/UTMA Custodial Accounts” on page 3 for a discussion of the treatment of Accounts established by UGMA/UTMA custodians. The designation of a Successor Account Owner may be revoked or changed at any time by the Account Owner by submitting an Account Maintenance Form to the Servicing Agent. All other requests to transfer ownership to a Successor Account Owner (i.e., other than at the death of the Account Owner if previously indicated on the Enrollment Application) must be submitted in writing. A transfer of ownership of an Account does not require a change of the Designated Beneficiary.

Designated Beneficiary is legally entitled to take control of the Account.

As with UGMA/UTMA accounts, the parent or guardian will not be permitted to change the registration of the Account. Withdrawals from the Account will only be permitted in accordance with Plan rules.

A transfer of ownership of an Account may have income, gift, estate or generation skipping transfer tax consequences. Account Owners should consult a tax advisor regarding tax issues that might arise on a transfer of Account Ownership.

INVESTMENT OPTIONS

General

Investment option(s) and the percentage of each Contribution to be allocated to the Portfolio(s) selected must be indicated on the Enrollment Application. The total allocation may not exceed 100%. All subsequent Contributions will be invested in the selected Portfolio(s) and at the designated allocations until a new designated allocation is selected by the Account Owner.

The Plan consists of nine investment Portfolios—five Enrollment-based Portfolios (one of which is assigned based on the number of years until the Designated Beneficiary is expected to attend college) and four Static Portfolios. Each Portfolio seeks to meet its investment objective by building a portfolio of investments that meet a target investment allocation between equity and fixed-income investments. Each Portfolio’s performance depends on the investment performance of the Underlying Investments in which it invests. Therefore, the risks of investing in the Portfolios are the same as the risks associated with an investment in the Underlying Investments. A more detailed description of each of the Portfolios is set forth below. No Underlying Investment financial information is included in this Enrollment Handbook.

Account Owners, at the time of enrollment, must select an investment approach or combination thereof:

- Enrollment-based Portfolios
- Static Portfolios

Account Owners should consult their State Farm Agent and periodically assess and, if appropriate, adjust their investment choices with their time horizon, risk tolerance and investment objectives in mind.

Contributions to the Plan are invested in Portfolios selected by the Account Owner. The Servicing Agent and the Nebraska Investment Council have designed each Portfolio with a different investment objective and asset allocation mix because investors have different investment goals, savings needs, investment time horizons, risk tolerances and financial and tax situations. Each Portfolio invests in one or more Underlying Investments. The actual mix of assets in Portfolios that invest in more than one Underlying Investment will vary over time due to market performance and will be rebalanced at least quarterly in order to maintain the Portfolio’s target asset allocation. In addition, from time to time a Portfolio may not be fully invested and may hold a limited amount of cash as needed to avoid overdrafts due to redemption requests, securities settlements or similar situations. Portfolios with
higher allocations in fixed income and money market Underlying Investments tend to be less volatile than those with higher equity Underlying Investment allocations. None of the Portfolios is designed to provide any particular total return over any particular time period or investment time horizon. Account Owners own Interests in a Portfolio; they do not have a direct beneficial interest in the Underlying Investments or the other instruments. Because the Portfolios have different investment objectives, Account Owners have the opportunity to diversify their investment in the Plan. When investing in the Plan, an Account Owner should consider, among other factors, when Contributions will be made to the Account, the Contribution amounts, the time Contributions will be held in the Account before withdrawals are directed, other resources expected to be available to fund the Designated Beneficiary’s Qualified Higher Education Expenses, the age of the Designated Beneficiary and the limited ability to change investment options for Contributions (and any earnings thereon) that have already been invested in an Account. There is no assurance that the strategy of any Portfolio will be successful. Participation in the Plan is not considered to be part of an investment advisory service.

The Nebraska Investment Council reserves the right to change the investment objectives and policies of the Portfolios, to change the type and number of Portfolios that are available, and to change or eliminate target allocations and Underlying Investments at its discretion. The Underlying Investments in which a Portfolio invests and a Portfolio’s target allocations may be modified by the Nebraska Investment Council at any time without prior notice to Account Owners. All dividends and distributions paid by the Underlying Investments in which the Portfolios invest will be reinvested in the applicable Underlying Investments and will not be paid directly to each Account Owner. Account Owners and Designated Beneficiaries will have no voting rights (and will receive no information with respect to voting) with respect to shares of any Underlying Investments held by any Portfolio. All voting decisions with respect to shares of the Underlying Investments will be made by the Nebraska Investment Council or its designee.

Under federal tax law, once a Portfolio selection has been made, an Account Owner may change how previous Contributions (and any earnings thereon) have been allocated among the available Portfolio options for all Accounts in the Trust for the same Designated Beneficiary (including Trust accounts not in the Plan) only twice per calendar year or upon a change of the Designated Beneficiary. None of the Program Parties, the Federal Deposit Insurance Corporation or any government agency insures any Account or guarantees any rate of return or any interest rate on any Contribution, and none of the Program Parties is liable for any loss incurred by any person as a result of participating in the Plan. An Account may fluctuate in value and may be worth more or less than the amounts contributed at any given time.

**ENROLLMENT-BASED PORTFOLIOS**

The Enrollment-based Portfolios are a series of five investment Portfolios that are designed to fit particular investment time horizons. The Enrollment-based Portfolios also invest all of their assets in the Underlying Investments. Contributions and investment earnings will be invested in the Underlying Investments based on the anticipated time to college enrollment of the Designated Beneficiary, and will typically be invested more heavily in underlying equity investments when the Designated Beneficiary is younger and more heavily in fixed-income and money market investments as the Designated Beneficiary nears enrollment in college.

If you invest in the Enrollment-based Portfolios, the Servicing Agent will reallocate your investments as your Designated Beneficiary nears enrollment in college. In this case, you will be asked to provide (on the Enrollment Application) your Designated Beneficiary’s estimated year of enrollment in college. The Servicing Agent will make the determination as to whether your investments are scheduled to move to the next Portfolio. Thus, if you opened an Account in 2012 and indicated on your Enrollment Application that your Designated Beneficiary is expected to begin enrollment in 2016, the Servicing Agent will reallocate your investments on a schedule which will have you invested in the College Now Portfolio before September 1, 2016. If you elect to invest in the Enrollment-based Portfolios in an Account for a Designated Beneficiary who is under age 18, and you do not provide an estimated time to enrollment, your initial investment will be made based on the assumption that enrollment will begin in the year in which the Designated Beneficiary turns 18 years of age. The Servicing Agent relies on your representations to allocate your assets to a particular Enrollment Based Portfolio at the outset. The investment objective of each Enrollment-based Portfolio is as follows. For additional information regarding the Underlying Investments, see “ADDITIONAL INFORMATION REGARDING THE UNDERLYING INVESTMENTS” beginning on page 33.

**13+ Years to College Portfolio**

The 13+ Years to College Portfolio is an investment Portfolio that invests all of its assets in equity investments to seek capital appreciation. This Portfolio has a target allocation of 100% equity investments.

**7-12 Years to College Portfolio**

The 7-12 Years to College Portfolio is an investment Portfolio that invests in a combination of equity and fixed income investments in order to seek capital appreciation and income. This Portfolio has a target allocation of 60% equity investments and 20% fixed-income investments.

**4-6 Years to College Portfolio**

The 4-6 Years to College Portfolio is an investment Portfolio that invests in a combination of equity and fixed income investments in order to seek capital appreciation and income. This Portfolio has a target allocation of 60% equity investments and 40% fixed income investments.

**1-3 Years to College Portfolio**

The 1-3 Years to College Portfolio is an investment Portfolio that invests primarily in equity, fixed income and money market investments in order to seek conservative appreciation, income and potential protection of
principal. This Portfolio has a target allocation of 40% equity investments, 45% fixed income investments, and 15% money market investments.

College Now Portfolio
The College Now Portfolio is an investment Portfolio that invests primarily in fixed income and money market investments in order to seek income and protection of principal. This Portfolio has a target allocation of 10% equity investments, 65% fixed income investments and 25% money market investments.

STATIC PORTFOLIOS
The Underlying Investments in which each Static Portfolio invests remains the same and does not change based on the age of the Designated Beneficiary. The investment objective of each Static Portfolio is set forth below. For additional information regarding the Underlying Investments, see “ADDITIONAL INFORMATION REGARDING THE UNDERLYING INVESTMENTS” beginning on page 33.

OppenheimerFunds Growth Portfolio
The OppenheimerFunds Growth Portfolio is an investment Portfolio that invests all of its assets in equity investments to seek capital appreciation. This Portfolio has a target allocation of 100% of equity investments.

OppenheimerFunds Moderate Growth Portfolio
The OppenheimerFunds Moderate Growth Portfolio is an investment Portfolio that invests in a combination of equity and fixed income investments in order to seek capital appreciation and income. This Portfolio has a target allocation of 80% equity investments and 20% fixed-income investments.

OppenheimerFunds Balanced Portfolio
The OppenheimerFunds Balanced Portfolio is an investment Portfolio that invests in a combination of equity and fixed income investments in order to seek capital appreciation and income. This Portfolio has a target allocation of 60% equity investments and 40% fixed income investments.

OppenheimerFunds Money Market Portfolio
The OppenheimerFunds Money Market Portfolio is an investment Portfolio that seeks preservation of capital by investing all of its assets in an underlying money market fund to maintain stability. This Portfolio has a target allocation of 100% money market investments.

¹ Each Portfolio invests in the Y class of shares of the applicable Underlying Investment, except that the Portfolios invest in the institutional class of shares of the State Farm Bond Fund and the L class of shares of the Oppenheimer Institutional Money Market Fund.

² A Portfolio’s investment in the Oppenheimer Institutional Money Market Fund is neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. Although this Underlying Investment seeks to preserve the value of your investment at $1.00 per share, it is possible to lose money by investing in this Underlying Investment.
Changes in Investment Guidelines or Underlying Investments

From time to time, the Nebraska Investment Council may change the investment guidelines for the Plan. If such a change so requires, or in connection with a transition in service provider, the Servicing Agent will cause a Portfolio to divest itself of ownership of shares of one or more Underlying Investments. During the transition from one Underlying Investment to another Underlying Investment, a Portfolio may be temporarily uninvested and lack market exposure to an asset class. During such transition period, a Portfolio may temporarily hold a basket of securities to the extent that the Underlying Investment from which it redeems chooses to satisfy the Portfolio’s redemption out of such investment on an in kind basis. In such event, the Servicing Agent will seek to liquidate the securities received from the Underlying Investment as promptly as practicable so that the proceeds can be promptly invested in the replacement Underlying Investment. The transaction costs associated with such liquidation, as well as any market impact on the value of the securities being liquidated, will be borne by the Portfolio and Accounts invested in such Portfolio. An Underlying Investment from which a Portfolio redeems may impose redemption fees. In such event, the Portfolio, and Accounts invested in such Portfolio, will bear such redemption fees.

How the Value of an Account is Calculated

The NAV of a Portfolio per unit is calculated by dividing the value of its net assets by the total number of units of the Portfolio outstanding. NAV per unit is based on the value of the investments of the Portfolio, including its holdings in the underlying investments. The NAV per share of each underlying investment is determined as of the close of regular trading on the NYSE. Each Portfolio will be closed for wire purchases and redemptions on days when the Federal Reserve Wire System is closed.

INVESTMENT PERFORMANCE

The following table presents Average Annual Total Returns for each Portfolio for the period shown to December 31, 2015. The Portfolio performance information represents past performance and is no guarantee of future results. The Average Annual Total Returns presented below reflect past performance and are net of annual asset-based fees (including Underlying Investment Expenses and Plan Fees) and do not consider the impact of any federal or state taxes. Applicable sales charges, which may be waived for certain Accounts, are not included in the returns excluding sales charges.

Performance information for the Portfolios should not be viewed as a prediction of future performance of any particular Portfolio. Moreover, in view of anticipated periodic revisions of allocations and possible changes in the Underlying Investments, the future investment results of any particular Portfolio cannot be expected, for any period, to be similar to the past performance of any Underlying Investment or group of Underlying Investments.

Performance differences between a Portfolio and its Underlying Investments may also result from differences in the timing of purchases. Under normal circumstances, on days when Contributions are made to an Account, the Portfolios will not use that money to purchase shares of an Underlying Investment until the next business day. This timing difference, depending on how the markets are moving, will cause the Portfolio’s performance to either trail or exceed the Underlying Investment’s performance.

Updated Portfolio performance information current to the most recent month-end is available online at sfcollegesavingsplan.com or by calling 1-800-321-7520. For more information, including performance information, on the underlying Federated mutual fund in which the Portfolios invest, please visit federatedinvestors.com or call Federated at 1-800-245-5051 and obtain a free prospectus or Annual or Semi-Annual Report. For more information, including performance information, on the underlying Oppenheimer mutual funds in which the Portfolios invest, please visit oppenheimerfunds.com or call Oppenheimer Funds at 1-800-525-7048 and obtain a free prospectus or Annual or Semi-Annual Report for any Oppenheimer mutual fund used in connection with the Plan. For more information, including performance information, on the underlying State Farm mutual fund in which the Portfolios invest, please visit statefarm.com or call State Farm at 1-800-447-4930 and obtain a free prospectus or Annual or Semi-Annual Report.

Customized Portfolio Performance Benchmarks

The benchmarks for the Portfolios represent customized composites of market indices for the available Underlying Investments weighted by the relative target asset allocation for such Portfolio.

Investors cannot directly invest in the compilation of the benchmark indices.

</table>

1. Performance is not load adjusted.
2. Reported performance for Class A units Including Sales Charge is load adjusted based upon the current maximum 5.50% initial sales charge applied to the Portfolio’s net asset value at the beginning of the investment period, except the Money Market Portfolio, which has no sales charge.
3. Reported performance for Class B units Including Sales Charge is load adjusted by applying the maximum 5.00% contingent deferred sales charge (“CDSC”) to the lesser of the Portfolio’s beginning or ending net asset value for the calculated period. Class B Units will convert to A Units after the eighth year.
4. Since Inception returns are annualized returns based upon a true day count and a 365-day/year calculation.
5. See “Customized Portfolio Performance Benchmarks” for a list of the Customized Portfolio Performance Benchmarks.
6. Investments in the Money Market Portfolio are neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. Although this Portfolio seeks to preserve the value of your investment at $1.00 per share, it is possible to lose money by investing in this Portfolio.
PLAN FEES AND EXPENSES
Each Account bears certain ongoing Plan fees which are charged against the assets of the Portfolios, to provide for the costs associated with the distribution, servicing and administration of the Account. These Plan fees, which are described below, will reduce the value of the Account as they are incurred. Accounts also will indirectly bear fees and expenses of the Underlying Investments in which the Portfolios invest. In addition, Accounts may also be charged certain fees and expenses, including the fees of independent public accountants for conducting annual audits and other fees and expenses the Nebraska State Treasurer or the Nebraska Investment Council may from time to time impose. The Nebraska State Treasurer or the Nebraska Investment Council may change or add new fees at any time.

Management Fee
The Servicing Agent receives a management fee of 0.15% for Plan administration and investment management services. The Servicing Agent or its affiliate also receives compensation directly from the Underlying Investments in which the Portfolios invest for serving as the investment adviser of those funds. The Program Manager also receives a management fee of 0.02% for Plan management services.

State Administrative Fee
The Nebraska State Treasurer receives a State Administrative Fee of 0.05% for administering and marketing the Plan and Trust.

Annual Asset-based Charge
An annual asset-based charge is accrued by each unit class of a Portfolio on a daily basis and paid to the Plan Distributor; this fee is not reflected as a direct charge against your Account on your Account statements, but rather is included in the daily NAV calculation for each unit class of each Portfolio. The annual asset-based charge varies depending on which class of units you purchase:

- For Class A units, an annual asset-based charge at an annual rate of 0.25% of the average daily net assets is paid by each Portfolio (except the Money Market Portfolio).
- For Class B units, an annual asset-based charge at an annual rate of 1.00% of the average daily net assets is paid by each Portfolio (except the Money Market Portfolio).

You should note, however, that the Class B units you purchased will be converted to Class A units at the end of the month which is eight years after the date on which the units were purchased. Thus, the overall annual asset-based charge indirectly borne by you will decrease over time.

Underlying Investment Expenses
Each Account will also indirectly bear its pro rata share of the fees and expenses of the Underlying Investments in which it invests. Each Portfolio’s investment return will be net of the Underlying Investment’s expenses. Although the Underlying Investment’s fees and expenses are not charged individually to Accounts, they will reduce the investment returns realized by each individual Account Owner. For more information about the fees and expenses of the Underlying Investments, see “INVESTMENT OPTIONS” on page 8.

Payments Among Service Providers
The Plan Distributor will pay State Farm fees equal to 0.15% of the average daily net assets invested in the Plan for marketing support services. These fees are paid out of the Distributor’s assets and do not add to the cost of investing in the Plan. These fees are in addition to any other fees paid directly or indirectly by the Plan to State Farm and any commissions the Distributor pays to State Farm out of the sales charges paid by Account Owners.

An Account Owner can ask his or her State Farm Registered Representative about any payments it receives from the Servicing Agent and its affiliates and any services it provides, as well as about fees and/or commissions it charges.

The cost of investing in the Trust through the other series of units and distribution channels will differ from, and may be more or less than, the costs of investing through this Plan.

Initial Sales Charges

Class A Units
When you open an Account, or reallocate funds on which a sales charge was not imposed, an initial sales charge will generally be assessed on purchases of Class A units. Investments made on a single day for multiple Accounts in the Plan may be aggregated for the purpose of determining the applicable initial sales charge. Assets already invested in the Plan may also be aggregated, as described below. Class A units of the Portfolios (except the Money Market Portfolio) are subject to the following initial sales charges:

<table>
<thead>
<tr>
<th>Investment Amount(^1)</th>
<th>Sales Charge</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than $25,000</td>
<td>5.50%</td>
</tr>
<tr>
<td>$25,000 - $49,999</td>
<td>5.25%</td>
</tr>
<tr>
<td>$50,000 - $99,999</td>
<td>4.75%</td>
</tr>
<tr>
<td>$100,000 - $249,999</td>
<td>3.75%</td>
</tr>
<tr>
<td>$250,000 - $499,999</td>
<td>3.00%</td>
</tr>
<tr>
<td>$500,000 - $999,999</td>
<td>2.00%</td>
</tr>
<tr>
<td>$1,000,000 or more</td>
<td>0.00%</td>
</tr>
</tbody>
</table>

1. This is the total amount invested (in one or more Accounts within the Plan) in Class A units on a single day.

An investment of $1,000,000 or more which is made on a single day (and which is therefore made without the imposition of an initial sales charge) is referred to generically below as a “large purchase.” Notwithstanding the schedules set forth above, Class A units of any Portfolio may be purchased without the imposition of an initial sales charge if the purchase is made:

- by any current or retired officer, director or employee (or a member of their immediate or extended family) of the Servicing Agent and
Immediate family is defined as:
- by any current or retired State Farm Agents, Employees, or State Farm VP Management Corp. Registered Representatives who work for a State Farm Agent, or a member of their immediate or extended family;
- in an Account for which the Designated Beneficiary is an immediate family member of any current or retired State Farm Agent, Employee, or State Farm VP Management Corp. Registered Representative who works for a State Farm Agent or
- as a rollover with amounts representing the proceeds of a Coverdell Education Savings Account held through State Farm Mutual Funds upon notice to the Servicing Agent

For purposes of the above the following definitions apply:
- Spouse, which means the person to whom you legally are married under the laws of the state in which you reside
- Parents
- stepparents
- children (natural born children, stepchildren, court appointed foster children or legally adopted children)

Extended family is defined as:
- grandparents
- step-grandparents
- great-grandparents
- step-great-grandparents
- grandchildren
- step-grandchildren
- great-grandchildren
- step-great-grandchildren

If you are eligible to purchase Class A units without an initial sales charge as an immediate family member of a current or retired agent or employee of the State Farm Insurance Companies and if that person dies, you continue to be a person who, without paying an initial sales charge, may establish new registrations and add to existing registrations.

If you are eligible to purchase Class A units without an initial sales charge as an extended family member of a current or retired agent or employee of the State Farm Insurance Companies and if that person dies, you may no longer establish new registrations without paying an initial sales charge.

If you hold Class A units that were purchased without an initial sales charge but you no longer qualify to establish new registrations without paying an initial sales charge, you may nevertheless maintain and add to your existing registration(s) without paying an initial sales charge.

You may be asked to provide documentation to the Servicing Agent in order to confirm your qualification for the initial sales charge waivers discussed above.

Concessions are not paid to State Farm Registered Representatives by the Plan Distributor on units purchased at net asset value.

**Letter of Intent**

Under a Letter of Intent (a "Letter"), you may be able to reduce the sales charge rate that applies to your purchases of Class A units of the Plan if you purchase Class A units of the Plan or Class A or Class C shares of mutual funds advised by OppenheimerFunds, Inc. A Letter is an investor’s statement in writing to the Plan Distributor of his or her intention to purchase a specified value of Class A units in all his or her Accounts in the Plan along with contributions to any other advisor-sold Section 529 Plans (within or outside of Nebraska) that are managed by OFI Private Investments Inc. or its affiliates and purchases of Class A and C shares of mutual funds advised by OFI Global Asset Management, Inc. (except Class A shares of Oppenheimer Money Market Fund and Oppenheimer Cash Reserves for which no initial sales charge was paid) during a 13-month period (the “Letter period”), which begins on the date of the Account Owner’s first unit purchase following the establishment of the Letter. The sales charge on each purchase of Class A units during the Letter period will be at the rate that would apply to a single lump-sum purchase of units in the amount intended to be purchased under the Letter. In submitting a Letter, the Account Owner makes no commitment to purchase units. However, if the Account Owner does not fulfill the terms of the Letter by the end of the Letter period, he or she agrees to pay the additional initial sales charges that would have been applicable to the Class A unit purchases that were made. The Account Owner agrees that units equal in value to 2% of the intended purchase amount will be held in escrow by the Plan Distributor for that purpose, as described in “Terms of Escrow” below. It is the responsibility of the dealer of record and/or the Account Owner to advise the Plan Distributor about the Letter when placing purchase orders during the Letter period.

To determine whether an investor has fulfilled the terms of a Letter, the Plan Distributor will count purchases of Class A units of the Plan along with contributions to any other advisor-sold Section 529 Plans (within or outside of Nebraska) that are managed by OFI Private Investments Inc. or its affiliates and purchases of Class A and C shares of mutual funds advised by OFI Global Asset Management, Inc. (except Class A shares of Oppenheimer Money Market Fund and Oppenheimer Cash Reserves for which no initial sales charge was paid) during the Letter period. In addition, the Account Owner will be considered to have fulfilled the Letter if the value of the Account Owner’s total holdings of units on the last day of the Letter period, calculated at the net asset value on that day, equals or exceeds the intended purchase amount. You must notify the Plan Distributor or your current intermediary of any qualifying mutual fund holdings.

If the terms of the Letter are not fulfilled by the end of the Letter period, the concessions previously paid by the Plan Distributor to the dealer of record for your Account and the amount of initial sales charges retained...
by the Plan Distributor will be adjusted on the first business day following the expiration of the Letter period to reflect the initial sales charge rates that apply to the actual total purchases of units. If total eligible purchases during the Letter period exceed the intended purchase amount and exceed the amount needed to qualify for the next sales charge rate reduction set forth in this Enrollment Handbook, the sales charges paid may be adjusted to the lower rate. That adjustment will only be made if and when the dealer returns to the Plan Distributor the excess of the amount of concessions allowed or paid to the dealer over the amount of concessions that apply to the actual amount of purchases. The reduced sales charge adjustment will be made by adding to your Account(s) the number of additional units that would have been purchased if the lower sales charge rate had been used. Those additional units will be determined using the net asset value per unit in effect on the date of such adjustment.

By establishing a Letter, the Account Owner agrees to be bound by the terms of this Enrollment Handbook and the application used for a Letter, and if those terms are amended to be bound by the amended terms and that any amendments by the Plan Distributor will apply automatically to existing Letters.

Terms of Escrow That Apply to Letters of Intent

1. Out of the initial purchase, and out of subsequent purchases if necessary, the Plan Distributor will hold in escrow units equal to 2% of the intended purchase amount specified in the Letter. For example, if the intended purchase amount is $50,000, the escrow amount would be units valued at $1,000 (computed at the offering price for a $50,000 Unit purchase). Escrowed units are not eligible for either Qualified or Nonqualified Withdrawals during the Letter period unless the Account Owner terminates the Letter.

2. If the Letter applies to more than one Account, the Account Owner can designate the Account from which units will be escrowed. If no Account is selected, the Plan Distributor will escrow units in the Account that has the highest dollar balance on the date of the first purchase under the Letter. If there are not sufficient units to cover the escrow amount, the Plan Distributor will escrow units in the Account(s) with the next highest balance(s). If there are not sufficient units in the Accounts to which the Letter applies, the Plan Distributor may escrow units in other Accounts that are linked for Rights of Accumulation purposes. Additionally, if there are not sufficient units available for escrow at the time of the first purchase under the Letter, the Plan Distributor will escrow future purchases until the escrow amount is met.

3. If the total purchases under the Letter are less than the intended purchases specified, on the first business day after the end of the Letter period the Plan Distributor will redeem escrowed units equal in value to the difference between the dollar amount of sales charges actually paid and the amount of sales charges which would have been paid if the total purchases had been made at a single time. Any units remaining after such redemption will be released from escrow.

4. If the terms of the Letter are fulfilled, the escrowed units will be promptly released to the Account Owner at the end of the Letter period.

5. By signing the Letter, the investor irrevocably constitutes and appoints the Plan Distributor as attorney-in-fact to surrender for redemption any or all escrowed units.

Rights of Accumulation

A Right of Accumulation permits certain Account Owners to combine the value of assets in their Accounts within the Plan (regardless of the service class selected) to reduce the initial sales charge applicable to the purchase of Class A units. Account Owners may also count the value of assets in other advisor-sold Section 529 Plans (within or outside of Nebraska) that are managed by OFI Private Investments Inc. or its affiliates and purchases of Class A, B and C shares of mutual funds advised by OFI Global Asset Management, Inc. (except Class A shares of Oppenheimer Money Market Fund and Oppenheimer Cash Reserves for which no initial sales charge was paid) to reduce the initial sales charge applicable to the purchase of Class A units. Shares of mutual funds advised by State Farm or its affiliates do not count towards the Plan’s Rights of Accumulation. The Program Distributor will determine the value of Section 529 Plan units you currently own based on the greater of aggregate net contributions or total units multiplied by the current Net Asset Value and the value of mutual fund shares you currently own as described in such fund’s prospectus.

The reduced initial sales charges described above resulting from Rights of Accumulation apply if the Plan Distributor is notified that a Contribution qualifies for a reduced initial sales charge at the time the Contribution is made. The reduced initial sales charge will be granted upon confirmation of the aggregate Contributions to the applicable Accounts. Such reduced initial sales charges generally will not be applied retroactively to Contributions made prior to the Contribution that qualifies for the applicable reduced initial sales charge.

Reinstatement Privilege. If all or a part of an Account Owner’s (a) Class A units in the Plan or any other OFI Private Investments Inc. administered Section 529 Plan (including Section 529 Plans administered by affiliates of the Plan Distributor) that were purchased subject to an initial sales charge or on which a contingent deferred sales charge was paid, or (b) Class B units in the Plan or any other OFI Private Investments Inc. administered Section 529 Plan on which a contingent deferred sales charge was paid are redeemed or transferred, the Account Owner may reinvest an amount equal to all or a portion of the redemption or transfer proceeds in Class A units of the same Plan Portfolio or any other Plan Portfolio at the net asset value, without the imposition of an initial sales charge, next determined after receipt in Good Order of the Contribution, provided that such reinvestment is made within ninety (90) days of the redemption or transfer. The Reinstatement Privilege described above only applies if the Plan Distributor is notified that a Contribution qualifies for a reduced initial sales charge at the time the Contribution is made.

The reduced initial sales charge will be granted upon confirmation that an initial sales charge or contingent deferred sales charge was paid in
connection with the redeemed or transferred amount. The Trustee or the Plan Distributor may amend, suspend or cease offering this Reinstatement Privilege at any time as to units redeemed or transferred after the date of such amendment, suspension or cessation.

Contingent Deferred Sales Charges

Class A Units

Generally, there is no contingent deferred sales charge (CDSC) upon withdrawals from Class A units held in your Account. A CDSC may be imposed in connection with Class A units purchased without an initial sales charge that are redeemed within an 18-month "holding period" measured from the beginning of the calendar month of their purchase.

Class B Units

Class B units held in an Account may be subject to a CDSC upon withdrawal (except the Money Market Portfolio). The CDSC schedule for Class B units is as follows:

<table>
<thead>
<tr>
<th>Year following purchase in which Class B units are redeemed</th>
<th>CDSC</th>
</tr>
</thead>
<tbody>
<tr>
<td>First</td>
<td>5.00%</td>
</tr>
<tr>
<td>Second</td>
<td>4.00%</td>
</tr>
<tr>
<td>Third</td>
<td>3.00%</td>
</tr>
<tr>
<td>Fourth</td>
<td>3.00%</td>
</tr>
<tr>
<td>Fifth</td>
<td>2.00%</td>
</tr>
<tr>
<td>Sixth</td>
<td>1.00%</td>
</tr>
<tr>
<td>Seventh</td>
<td>None</td>
</tr>
<tr>
<td>Eighth</td>
<td>None</td>
</tr>
</tbody>
</table>

In determining whether to charge a CDSC upon withdrawal, the Servicing Agent will assume that you are taking a distribution of investment earnings before any return of Contributions and will not impose a CDSC on the portion of any distribution attributable to investment earnings. The Servicing Agent will account for units on a first-in-first-out-basis, which means that you will redeem units in the order in which they were purchased. Thus, even if your withdrawal includes a return of Contributions, it will be processed with units on which there is no CDSC due being redeemed first.

This accounting treatment is solely for purposes of applying CDSCs and is different from that which will be applied in order to determine the tax consequences of a distribution. You should note that the Class B units you purchased will be converted to Class A units at the end of the month which is eight years after the date on which the units were purchased.

No CDSC will be charged if you make a Qualified Withdrawal in the event of the death or disability of the Designated Beneficiary or the receipt of a scholarship or an appointment to a United States military academy by the Designated Beneficiary.

The sales charges applicable to Class A and Class B units are in addition to any other fees charged against your Account.

Closure of Class B Units

The plan ceased offering Class B units on February 27, 2012. Any Contributions for Class B units received by the Plan Distributor after such date will automatically be directed to Class A units and will be subject to current annual asset-based fees and sales charges associated with Class A units. Account Owners are permitted to remain invested in Class B units that were purchased prior to February 24, 2012 until such time as Class B units convert to Class A units. For administrative purposes, any Account Owners with AIP instructions to purchase Class B units will be automatically redirected to Class A units. Under certain circumstances this will result in a new Class A Account being opened for Account Owners holding an existing Class A Account prior to the date Class B units were closed.

Selling Compensation

A portion of the initial sales charge may be retained by the Plan Distributor or paid to State Farm VP Management Corp., as compensation for sales efforts. The Plan Distributor reserves the right to pay the entire sales charge to State Farm VP Management Corp.

Selling agents will be paid the following commissions and service fees by the Distributor in connection with the sale of units of each Portfolio and the maintenance of your Account (due to rounding, the actual sales charge for a particular transaction may be higher or lower than the rates listed):

- Class A units—State Farm VP Management Corp. will be paid a commission on each new purchase in the amount set forth below plus an amount equal to 0.25% of the average daily net assets in your Account which remain invested in Class A units.

<table>
<thead>
<tr>
<th>Sales Charge Paid</th>
<th>Selling Agent's Commission</th>
</tr>
</thead>
<tbody>
<tr>

</table>

1. There is no guarantee that actual expenses will be the same as those shown in the table.
2. For Portfolios that invest in more than one Underlying Investment, based on a weighted average of each Underlying Investment’s expense ratio in accordance with the Portfolio’s target asset allocation among the applicable Underlying Investments as of December 31, 2015; and for Portfolios that invest in one Underlying Investment, based on the most recent expense ratio for the Underlying Investment as of December 31, 2015. Underlying Investment Expenses include investment advisory fees, which may be paid to the Servicing Agent or its affiliates, administrative and other expenses.
3. The Servicing Agent receives a fee of 0.15% and the Program Manager receives a fee of 0.02%.
4. The Nebraska State Treasurer receives a fee of 0.05% for administering and marketing the Plan and Trust.
5. This total is assessed against assets over the course of the year and does not include sales charges. See “Investment Cost Chart” for the approximate cost of investing in each of the Portfolios over 1-, 3-, 5- and 10-year periods.
6. Payable at the time of Contribution. Lower initial sales charges are available for larger aggregate Contributions. Waived for certain Account Owners. See “Initial Sales Charges” for more details. A maximum contingent deferred sales charge of 1.00% may be charged, and partially waived in limited circumstances, for Contributions not subject to an initial sales charge that are withdrawn, transferred or rolled over from an Account within 18 months of the Contribution. See “Contingent Deferred Sales Charges—Class A Units” for more details.
7. The Servicing Agent has voluntarily undertaken to waive its fees (but not below zero) and/or reimburse expenses to the extent necessary to assist the Money Market Portfolio in attempting to maintain at least a 0.00% return. There is no guarantee that the Money Market Portfolio will maintain this return. This undertaking may be amended or withdrawn at any time.

</table>

1. There is no guarantee that actual expenses will be the same as those shown in the table. Class B units automatically convert to Class A units after eight years. See “Contingent Deferred Sales Charges—Class B Units” for more details.

2. For Portfolios that invest in more than one Underlying Investment, based on a weighted average of each Underlying Investment’s expense ratio in accordance with the Portfolio’s target asset allocation among the applicable Underlying Investments as of December 31, 2015; and for Portfolios that invest in one Underlying Investment, based on the most recent expense ratio for the Underlying Investment as of December 31, 2015. Underlying Investment Expenses include investment advisory fees, which may be paid to the Servicing Agent or its affiliates, administrative and other expenses.

3. The Servicing Agent receives a fee of 0.15% and the Program Manager receives a fee of 0.02%.

4. The Nebraska State Treasurer receives a fee of 0.05% for administering and marketing the Plan and Trust.

5. This total is assessed against assets over the course of the year and does not include sales charges. See “Investment Cost Chart” for the approximate cost of investing in each of the Portfolios over 1-, 3-, 5- and 10-year periods.

6. Payable with respect to each Contribution if you direct a Withdrawal, transfer or rollover from your Account within six years of a Contribution. Partially waived in limited circumstances. See “Contingent Deferred Sales Charge—Class B Units” for more details.

7. The Servicing Agent has voluntarily undertaken to waive its fees (but not below zero) and/or reimburse expenses to the extent necessary to assist the Money Market Portfolio in attempting to maintain at least a 0.00% return. There is no guarantee that the Money Market Portfolio will maintain this return. This undertaking may be amended or withdrawn at any time.

### INVESTMENT COST CHART

The following chart compares the approximate cost of investing in each Portfolio and unit class of the Plan over different periods of time. However, your actual costs may be higher or lower. The examples assume:

- A $10,000 initial investment invested for the time periods shown in a particular Portfolio
- A 5% annually compounded rate of return on the amount invested throughout the time periods shown
- All redemptions are made for Qualified Higher Education Expenses and, therefore, do not reflect the impact of potential federal, state or local taxes
- Total Plan Fees (including weighted average expense ratios for the Underlying Investments) remain the same as those shown on pages 18-20
- Account Owner pays the maximum initial sales charge (without regard to possible breakpoints) for Class A units. With respect to Class B units, the chart illustrates both what you would pay assuming that you held your units and did not incur a CDSC and what you would pay if you were to redeem your units and incur the applicable CDSC
- In the case of the 10-year investment period, the annual costs shown for the Class B units assume such units are converted to the Class A units after the eighth year
### Cost of a $10,000 investment in each Portfolio:

1. Assumes conversion of Class B units to the lower Portfolio operating expenses of Class A units, which occurs on or about the end of the month which is at least eight years after the date on which the units were purchased.

2. This row reflects what you would pay if you were to redeem your units and incur the applicable CDSC charge.
CHANGING THE DESIGNATED BENEFICIARY

Code Section 529 generally allows for changes of the Designated Beneficiary without federal income tax consequences, as long as the new Designated Beneficiary is a Member of the Family of the current Designated Beneficiary. See “UGMA/UTMA Custodial Accounts” on page 3 for a discussion of the treatment of Accounts established by UGMA/UTMA custodians. In addition, the proposed regulations provide that no federal gift tax or generation-skipping transfer (“GST”) tax will result provided the new Designated Beneficiary is a Member of the Family of the current Designated Beneficiary and is assigned to the same generation as or an older generation than the current Designated Beneficiary. If the new Designated Beneficiary is assigned to a younger generation than the current Designated Beneficiary, the change will be treated as a taxable gift from the current Designated Beneficiary to the new Designated Beneficiary for federal gift tax purposes. If the new Designated Beneficiary is assigned to a generation which is two or more generations younger than the current Designated Beneficiary, the change will be subject to federal gift and GST tax. Any change of the Designated Beneficiary to a person who is not a Member of the Family of the current Designated Beneficiary will be treated as a Nonqualified Withdrawal subject to applicable federal and state income taxes as well as the additional 10% federal tax on earnings; and possibly as a new Contribution from the Account Owner to the new Designated Beneficiary for federal gift and GST tax purposes.

To initiate a change of Designated Beneficiary, the Account Owner must complete and submit an Account Maintenance Form (and any additional required documentation) to the Servicing Agent or to the State Farm representative through whom the Account is opened who will forward the documents to the Servicing Agent. The change will be made upon the Servicing Agent’s acceptance of a properly completed form. There is no fee or charge for changing a Designated Beneficiary.

An Account Owner may choose to reinvest amounts currently held in an Account to any of the available Portfolio(s) when changing the Designated Beneficiary for an Account. Account Owners who have chosen the Enrollment-based Portfolios should note that the Servicing Agent will automatically change the particular Portfolio the Account is invested in upon a change in the Designated Beneficiary unless the new Designated Beneficiary has the same estimated year of enrollment in college as the original Designated Beneficiary. This Portfolio change will be made by the Servicing Agent so that the Portfolio is appropriate for the estimated year of enrollment in college of the new Designated Beneficiary, and because it is automatic, this change will not count as an investment reallocation for the purposes of the twice per calendar year limitation.

Member of the Family

For purposes of changing the Designated Beneficiary, the definition of a Member of the Family of the Designated Beneficiary is:

- a son or daughter, or a descendant of either
- a stepson or stepdaughter
- a brother, sister, stepbrother or stepsister
- the father or mother, or an ancestor of either
- a stepfather or stepmother
- a son or daughter of a brother or sister
- a brother or sister of the father or mother
- a son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law or sister-in-law
- the spouse of the Designated Beneficiary or any of the foregoing individuals or
- a first cousin

For purposes of determining who is a Member of the Family, a legally adopted child of an individual shall be treated as the child of such individual by blood. The terms “brother” and “sister” include half-brothers and half-sisters.

If a change in Designated Beneficiary would cause a violation of the maximum Account balance limit with respect to the new Designated Beneficiary, the change will not be permitted.

WITHDRAWALS

Account Owners may make withdrawals from their Accounts or terminate their participation in the Plan at any time by notifying the Servicing Agent at PO Box 173865, Denver, CO 80217-3865, by calling The State Farm College Savings Plan at 1-800-321-7520, or by contacting the State Farm Registered Representative through whom the Account is opened. By federal law the earnings portion of Nonqualified Withdrawals will be subject to federal and any applicable state taxes and any applicable contingent deferred sales charges that may otherwise be due, as well as an additional 10% federal tax (unless an exception applies as described below). In the event of a withdrawal or termination, the NAV of the withdrawal is calculated at the next close of business of the NYSE after the Servicing Agent’s receipt of a request received In Good Order.

Procedures for Withdrawals

You may request a withdrawal from your Account by completing and submitting the appropriate form available from your State Farm Registered Representative at sfcollegesavings.com or by calling The State Farm College Savings Plan at 1-800-321-7520. The Servicing Agent reserves the right to delay remittance of redemption proceeds for units purchased by check or via direct deposit or AIP for up to five business days. In addition, the withdrawal request may take up to five business days to be processed. Distributions from the Plan will not be processed without valid Social Security numbers or federal taxpayer identification numbers.

Payments upon withdrawal will generally be made to the Account Owner or the Designated Beneficiary (if designated by the Account Owner) in the form of a check mailed or deposit directly to your bank account promptly following the receipt of redemption proceeds by the Trust from the Underlying Investments. (See “Qualified Withdrawals” below for detail). Checks will be sent only to the address of record of the Account Owner or Designated Beneficiary (if designated by the Account Owner), except in the case of direct payment by the Trust to an Eligible Institution of Higher Education for the credit of the Designated Beneficiary, which has been arranged by the Account Owner and the
Servicing Agent. To determine whether you can arrange payment directly to the bursar’s office of an Eligible Institution of Higher Education, please contact the Servicing Agent at PO Box 173865, Denver, CO 80217-3865 or by calling The State Farm College Savings Plan at 1-800-321-7520.

The Plan permits Account Owners to make Systematic Withdrawals from their Account(s).

If any withdrawal check is returned as undeliverable, efforts will be made to locate the Account Owner or Designated Beneficiary based on information available to the Trust. If the Account Owner or Designated Beneficiary is not located within 90 days following the return of the check to the Trust, the amount of the check will be deposited back into the Account. No interest will be paid during the 90-day search period. There may be tax consequences associated with such activity.

A signature guarantee will be required for all withdrawal requests that instruct payment to be made to a third party or those in the amount of $100,000 or more. You can obtain a signature guarantee from a bank, securities dealer, securities broker, credit union, savings and loan association, national securities exchange or registered securities association. A notary public seal will not be acceptable.

Qualified Withdrawals

In general, a Qualified Withdrawal is any distribution that is used to pay for the Qualified Higher Education Expenses of a Designated Beneficiary. If a Designated Beneficiary or an Account Owner receives a refund from an Eligible Institution of Higher Education, or otherwise, of amounts paid from an Account, any such refund will generally be a Nonqualified Withdrawal and subsequently subject to the tax consequences described below unless it is used for the Designated Beneficiary’s Qualified Higher Education Expenses in the same taxable year or satisfies the conditions required for a retribution described below.

A refund of any Qualified Higher Education Expenses received by a Designated Beneficiary from an Eligible Institution of Higher Education can be reattributed to a Section 529 plan account for that beneficiary and that amount will not be includible in income to the extent the retribution is made no more than 60 days after the date of the refund and the reattributed amount does not exceed the amount of the refund. The Account Owner is responsible for identifying to the Servicing Agent any contribution to an Account that qualifies for the treatment described in this paragraph and for certifying to the Servicing Agent that the conditions for such treatment have been satisfied.

To make a Qualified Withdrawal from an Account, the Account Owner must complete and submit a Withdrawal Request Form to his or her State Farm Registered Representative or the Servicing Agent at PO Box 173865, Denver, CO 80217-3865 or by calling The State Farm College Savings Plan at 1-800-321-7520.

You may request a withdrawal at any time (subject to a five-business day hold following each Contribution). A separate withdrawal form or request must be submitted for each withdrawal.

Under the Plan, at the direction of the Account Owner, Qualified Withdrawals may be paid directly to the (i) Eligible Institution of Higher Education for the credit of the Designated Beneficiary; (ii) Account Owner or Designated Beneficiary if the Account Owner or Designated Beneficiary has paid the Qualified Higher Education Expenses and is seeking reimbursement, or (iii) Account Owner or Designated Beneficiary in expectation of payment of Qualified Higher Education Expenses by the Account Owner or Designated Beneficiary in the same taxable year.

Please contact your State Farm Registered Representative when you are ready to request a Qualified Withdrawal to make arrangements for how it will be paid.

Qualified Higher Education Expenses

Qualified Higher Education Expenses currently include tuition, fees, books, supplies and equipment (including computers) required for the enrollment or attendance of a Designated Beneficiary at an Eligible Institution of Higher Education, as well as expenses for special needs services in the case of a special needs Designated Beneficiary who incurs such expenses in connection with enrollment or attendance at an Eligible Institution of Higher Education. Also included is an amount for the room and board incurred by a Designated Beneficiary while attending an Eligible Institution of Higher Education at least half-time. The limit for annual room and board expense for on and off campus housing is the allowance included in the “cost of attendance” at the Eligible Institution of Higher Education, or, if greater, the actual amount charged by the Eligible Institution of Higher Education for room and board costs for the applicable period.

Effective for taxable years beginning after December 31, 2014, Qualified Higher Education Expenses also include expenses for the purchase of computer and any related peripheral equipment, computer software, or Internet access and related services, if such equipment, software, or services are to be used primarily by the Designated Beneficiary during any of the years the Designated Beneficiary is enrolled at an Eligible Institution of Higher Education regardless of whether such technology or equipment is required by the Eligible Institution of Higher Education.

Computer software means any program designed to cause a computer to perform a desired function. Such term does not include any database or similar item unless the database or item is in the public domain and is incidental to the operation of otherwise qualifying computer software. Computer software designed for sports, games, or hobbies is not included unless this software is predominantly educational in nature.

Designated Beneficiaries will be considered to be enrolled at least half-time if they are enrolled for at least half the full-time academic workload for the course of study being pursued as determined under the standards of the Eligible Institution of Higher Education where they are enrolled. The institution’s standard for a full-time workload must equal or exceed a standard established by the U.S. Department of Education under the Higher Education Act of 1965, as in effect on June 7, 2001. A Designated Beneficiary need not be enrolled at least half-time to use a Qualified Withdrawal to pay for expenses relating to tuition, fees, books, supplies, equipment and special needs services.
A Nonqualified Withdrawal is any withdrawal from an Account other than expenses for which the Education Tax Credit was claimed. Any Qualified Withdrawal from the Account is not used for the same Beneficiary will not affect receipt of benefits from an Account as long as (together, “Education Tax Credits”) by an Account Owner or Designated Scholar tax credit for certain years) or a Lifetime Learning tax credit. The use of an American Opportunity tax credit (also known as the Hope Education Credits) and certain post-secondary vocational and proprietary institutions. Such institutions must be eligible to participate in U.S. Department of Education student financial aid programs. The definition of an Eligible Institution of Higher Education may change from time to time if there are changes to the Code or regulations or regulatory interpretations under the Code. Please visit www.fafsa.ed.gov or call 1-800-433-3243 to determine whether a particular institution is an Eligible Institution of Higher Education.

Education Credits

The use of an American Opportunity tax credit (also known as the Hope Scholarship tax credit for certain years) or a Lifetime Learning tax credit (together, “Education Tax Credits”) by an Account Owner or Designated Beneficiary will not affect receipt of benefits from an Account as long as any Qualified Withdrawal from the Account is not used for the same expenses for which the Education Tax Credit was claimed.

Nonqualified Withdrawals

A Nonqualified Withdrawal is any withdrawal from an Account other than a Qualified Withdrawal. In most cases, the earnings portion of a Nonqualified Withdrawal will be subject to income tax and an additional 10% federal tax, as described below. However, the additional 10% federal tax will not be imposed on a Nonqualified Withdrawal which is:

- A withdrawal by reason of the death (if paid to the Designated Beneficiary’s estate) or disability (within the meaning of Code Section 72(m)(7) of the Designated Beneficiary of the Account
- A withdrawal by reason of the Designated Beneficiary’s receipt of a qualified scholarship (to the extent of the scholarship amount)
- A withdrawal by reason of the Designated Beneficiary’s attendance at certain specified military academies
- A withdrawal that would otherwise be a Qualified Withdrawal but for the use of Education Tax Credits as allowed under federal income tax law
- A qualifying rollover distribution that is rolled into another state’s Section 529 Plan with appropriate documentation, or a qualifying transfer to an account for another Designated Beneficiary within the Trust. Qualified rollover distributions are not subject to taxation or additional tax at the federal level, but they are subject to any applicable CDSCs. In addition, if you roll over assets in your Account to another state’s Section 529 Plan, you will be deemed to have canceled your Participation Agreement with respect to such assets. Canceling your Participation Agreement may subject you to a recapture of any Nebraska state income tax deduction you may have claimed.

In addition, a transfer to a Designated Beneficiary who is not a Member of the Family of the current Designated Beneficiary will be deemed to be a Nonqualified Withdrawal, and possibly as a new Contribution from the Account Owner to the new Designated Beneficiary for federal gift and GST tax purposes.

In accordance with Code Section 529, the earnings portion of a Nonqualified Withdrawal is treated as income to the distributee and is subject to federal and applicable state income tax, as well as an additional 10% federal tax on earnings unless an exception to the additional tax applies as described above. The Servicing Agent will report the earnings portion of all distributions as required under federal tax law, but it is the responsibility of the Account Owner to determine the extent to which the withdrawal is a Qualified Withdrawal and to calculate and report any resulting tax liability.

Other Withdrawals

Death of Designated Beneficiary

In the event of the death of the Designated Beneficiary, the Account Owner may authorize a change in the Designated Beneficiary for the Account or request a withdrawal of all or a portion of the Account balance. A distribution on account of the death of the Designated Beneficiary if paid to the estate of the Designated Beneficiary will not be subject to the additional 10% federal tax on earnings, but earnings will be subject to federal and any applicable state income tax unless the distribution is rolled over to another account for a Member of the Family of the current Designated Beneficiary. A withdrawal of amounts in the Account, if not paid to the Designated Beneficiary’s estate or rolled over, may constitute a Nonqualified Withdrawal, subject to applicable federal and state income taxes at the recipient’s tax rate, the additional 10% federal tax on earnings, and the recapture of all previous Nebraska tax deductions taken for Contributions related to Nonqualified Withdrawals. See “UGMA/UTMA Custodial Accounts” on page 3 for a discussion of the treatment of Accounts established by UGMA/UTMA custodians.

Disability of Designated Beneficiary

If the Designated Beneficiary becomes disabled within the meaning of Code Section 72(m)(7), the Account Owner may authorize a change in the Designated Beneficiary for the Account or request a withdrawal of all or a portion of the Account balance. A distribution on account of the disability of the Designated Beneficiary will not be subject to the additional 10% federal tax on earnings, but earnings will be subject to federal and any applicable state income tax at the recipient’s tax rate unless the distribution is rolled over to another account for a Member of the Family of the current Designated Beneficiary. See “UGMA/UTMA Custodial Accounts” on page 3 for a discussion of the treatment of Accounts established by UGMA/UTMA custodians.
Receipt of Scholarship

If the Designated Beneficiary receives a qualified scholarship, Account assets up to the amount of the scholarship may be withdrawn without imposition of the additional 10% federal tax on earnings. See “UGMA/UTMA Custodial Accounts” on page 3 for a discussion of the treatment of Accounts established by UGMA/UTMA custodians. A qualified scholarship includes certain educational assistance allowances under federal law as well as certain payments for educational expenses (or attributable to attendance at certain educational institutions) that are exempt from federal income tax. The earnings portion of the withdrawal will be subject to federal and any applicable state income tax at the recipient’s tax rate unless the distribution is rolled over to another account for a Member of the Family of the current Designated Beneficiary.

Appointment at Certain Specified Military Academies

If the Designated Beneficiary attends the United States Military Academy, the United States Naval Academy, the United States Air Force Academy, the United States Coast Guard Academy, or the United States Merchant Marine Academy, the Account Owner may withdraw an amount up to an amount equal to the costs of advanced education attributable to the Designated Beneficiary’s attendance at the institution without incurring the additional 10% federal tax on earnings. The earnings portion of the withdrawal will be subject to federal and any applicable state income tax at the recipient's tax rate unless the distribution is rolled over to another account for a Member of the Family of the current Designated Beneficiary.

Use of Education Tax Credits

Taxpayers paying Qualified Higher Education Expenses from an Account will not be able to claim Education Tax Credits for the same expenses. Furthermore, expenses used in determining the allowed Education Tax Credits will reduce the amount of a Designated Beneficiary’s Qualified Higher Education Expenses to be paid from an Account as a Qualified Withdrawal and may result in taxable withdrawals. Such withdrawals will not be subject to the additional 10% federal tax on earnings.

Rollover Distributions to Another State’s Section 529 Plan

An Account Owner may roll over all or part of the balance of an Account to another Section 529 Plan account without adverse federal tax consequences so long as the amount withdrawn is placed in the other plan account within 60 days of the withdrawal, and the Designated Beneficiary of the new account is (i) a Member of the Family of the Designated Beneficiary of the current Account or (ii) the same Designated Beneficiary as for the current Account, provided in the latter case that such rollover does not occur within 12 months from the date of a previous rollover to a Section 529 Plan for the same Designated Beneficiary. See “Federal Tax Treatment of the Trust, Contributions and Withdrawals – Qualified Rollover Distributions” on page 28 for details. In certain cases, at the Account Owner’s direction, the Plan may directly transfer a Rollover Distribution to another Account or another state’s Section 529 Plan. See “UGMA/UTMA Custodial Accounts” on page 3 for a discussion of the treatment of Accounts established by UGMA/UTMA custodians. Qualified rollover distributions are not subject to taxation or additional tax at the federal level, but they are subject to any applicable CDSCs. In addition, if you roll over assets in your Account to another state’s Section 529 Plan, you will be deemed to have canceled your Participation Agreement with respect to such assets. Canceling your Participation Agreement may subject you to a recapture of any Nebraska state income tax deduction you may have claimed.

Exchanges to Another Plan Within the Trust

A direct transfer between the Plan and another plan within the Trust is treated as an investment reallocation, which is allowed only twice per calendar year, or upon a change in Designated Beneficiary.

Records Retention

You should obtain and retain records, receipts, invoices or other documentation that is adequate to substantiate: (i) expenses which you claim are Qualified Higher Education Expenses, (ii) the death or qualified disability of the Designated Beneficiary, (iii) the receipt by the Designated Beneficiary of a qualified scholarship, (iv) the appointment by the Designated Beneficiary to certain specified military academies, (v) the use of Education Tax Credits, and (vi) that you are entitled to favorable state tax treatment. The Plan is not responsible for determining whether a withdrawal is a Qualified Withdrawal or Nonqualified Withdrawal.

Residual Account Balances

If the Designated Beneficiary graduates from an Eligible Institution of Higher Education or chooses not to pursue higher education, and funds remain in the Account, the Account Owner may:

- Request that the remaining funds (including earnings) be paid to the Account Owner or Designated Beneficiary and treated as a Nonqualified Withdrawal. Earnings will be subject to any federal and applicable state income tax and an additional 10% federal tax.
- Authorize a change of Designated Beneficiary for the Account to a Member of the Family of the current Designated Beneficiary. See “UGMA/UTMA Custodial Accounts” on page 3 and “CHANGING THE DESIGNATED BENEFICIARY” on page 21 for a discussion of the treatment of Accounts established by UGMA/UTMA custodians.
- Keep the funds in the Account to pay future Qualified Higher Education Expenses (such as graduate or professional school expense) of the Designated Beneficiary.

Special Benefits for Nebraska Residents

In connection with the establishment of the Trust, the Nebraska Legislature has provided certain benefits to Nebraska residents. An Account Owner who is a Nebraska resident, or that files a Nebraska state income tax return, other than an Account Owner that is a custodian under a UGMA/UTMA account, was generally allowed before 2014 to deduct up to $5,000 ($2,500 if married filing separately) of Contributions per year from his or her gross income for Nebraska state income tax purposes. These limits increased to $10,000 ($5,000 if
married filing separately) on January 1, 2014. Minors filing a Nebraska state income tax return are eligible to take deductions for contributions to his or her UTMA/UGMA Account.

Beginning January 1, 2014, contributions by custodians who are also parents or guardians of the minor may be eligible to take deductions for their contributions to the minor’s Account, subject to applicable limits. In addition, there are no Nebraska state income taxes on investment earnings distributed as part of a Qualified Withdrawal.

Nebraska law currently provides for the partial recapture of the Nebraska State tax benefits in certain circumstances. See “Certain Nebraska State Tax Consequences” on page 27 for more details.

STATUS OF ACCOUNTS UPON DEATH, DISABILITY, OR DESIGNATED BENEFICIARY’S NON-PURSUIT OF HIGHER EDUCATION

If the Designated Beneficiary of an Account dies, you may (i) withdraw the Account balance, (ii) distribute the Account balance to the Designated Beneficiary’s estate, or (iii) change the Designated Beneficiary of the Account.

To the extent that you withdraw the Account balance in a Nonqualified Withdrawal, any earnings portion of such Nonqualified Withdrawal will be includible in your income for federal income tax purposes. In addition, any earnings portion included in your income may be subject to an additional 10% federal tax.

To the extent that you distribute the Account balance to the Designated Beneficiary’s estate in a Nonqualified Withdrawal, any earnings portion of such Nonqualified Withdrawal will be includible in the estate’s income, but will not be subject to the additional 10% federal tax. A change of the Designated Beneficiary of the Account will not result in any income tax consequences so long as the new Designated Beneficiary is a Member of the Family of the deceased Designated Beneficiary.

If the Designated Beneficiary of an Account becomes disabled within the meaning of Code Section 72(m)(7), you may withdraw the Account balance, distribute the Account balance to the Designated Beneficiary, or change the Designated Beneficiary of the Account. To the extent that you direct a Nonqualified Withdrawal or distribution from the Account, any earnings portion of such Nonqualified Withdrawal will be includible in your income or the Designated Beneficiary’s income for federal income tax purposes and will be subject to an additional 10% federal tax. A change of the Designated Beneficiary of the Account will not result in any income tax consequences so long as the new Designated Beneficiary is a Member of the Family of the current Designated Beneficiary.

For more information, see “FEDERAL AND STATE TAX CONSIDERATIONS,” on page 26.

CERTAIN RISKS TO CONSIDER

Opening an Account involves certain risks. Among other things discussed in this Enrollment Handbook, you should carefully consider the following risks before completing an Enrollment Application. You should read this Enrollment Handbook carefully before making a decision to open an Account. See “ADDITIONAL INFORMATION REGARDING THE UNDERLYING INVESTMENTS,” beginning on pages 33 for investment risks of the Underlying Investments.

The Value of Your Account May Decline. As with many investment programs, there can be no assurance that the value of your Account will grow at any particular rate or that it will not decline. The value of the Underlying Investments in which the Portfolios invest will change due to a number of factors, most of which will not be in the control of the Program Parties, or any of their respective affiliates, directors, officers or agents. If the value of the Underlying Investments decline, you may lose some or all of the principal balance in your Account. None of the Program Parties or any of their respective affiliates, directors, officers or agents guarantees any minimum rate of return on your investment or that you will not lose some or all of the principal amount invested.

Each Portfolio Invests its Assets in Underlying Investments. Each Portfolio’s investment performance depends on the investment performance of its Underlying Investment(s). Therefore, the risks associated with an investment in a Portfolio are also the risks associated with an investment in the Underlying Investments. There is a risk that an Underlying Investment’s investment adviser’s evaluations and assumptions regarding the Underlying Investments asset classes or the investments in which they invest may be incorrect based on actual market conditions. There is a risk that the Underlying Investments will vary from the target weightings due to factors such as market fluctuations. There can be no assurance that the Underlying Investments will achieve their investment objectives, and the performance of the Underlying Investments may be lower than the asset class that they were selected to represent. The Underlying Investments may change their investment objectives or policies. If that were to occur, a Portfolio might be forced to withdraw its investment from the Underlying Investment at a time that is unfavorable to the Portfolio.

Your Account is Not Insured or Guaranteed. Balances in your Account are not guaranteed or insured by the Program Parties, or any of their respective affiliates, directors, officers or agents, the Federal Deposit Insurance Corporation or any other party.

Acceptance to an Eligible Institution of Higher Education is Not Guaranteed. There is no guarantee that a Designated Beneficiary will be admitted to, or permitted to continue to attend, any college or other
Eligible Institution of Higher Education. If the Designated Beneficiary does not attend an Eligible Institution of Higher Education, withdrawals from your Account may be subject to taxes and penalties.

**Educational Expenses May Exceed the Balance in Your Account.** Even if you make the maximum amount of Contributions to your Account, the balance may not be sufficient to cover the Designated Beneficiary’s Qualified Higher Education Expenses.

**Plan Contributions do not Create Nebraska Residency.** Contributions to the Plan do not create Nebraska residency status for you or a Designated Beneficiary for purposes of determining the rate of tuition charged by a Nebraska educational institution.

**Risks Related to Possible Future Changes in State and Federal Tax Law.** There is a risk that federal and state laws and regulations governing Section 529 Plans could change in the future.

The proposed federal Treasury regulations that have been issued under Code Section 529 provide guidance and requirements for the establishment and operation of the Plan but do not provide guidance on all aspects of the Plan. In addition, these proposed regulations were issued prior to substantial changes in Code Section 529. Final regulations, other administrative guidance or court decisions might be issued that could adversely impact the federal tax consequences or requirements with respect to the Plan or Contributions to or withdrawals from your Account. Congress could also amend Code Section 529 or other federal law in a manner that would materially change the federal tax treatment of Contributions to, and withdrawals from, the Plan. You should understand that changes in the law governing the federal and/or state tax consequences described in this Enrollment Handbook might necessitate material changes to the Plan for the anticipated tax consequences to apply. Furthermore, the Plan has been established pursuant to Nebraska law, the guidelines and procedures adopted by the Nebraska State Treasurer, and applicable securities laws. Changes to any of those laws or regulations may also affect the operation and tax treatment of the Plan described in this Enrollment Handbook.

**Treatment for Federal, State, and Institutional Financial Aid Purposes.** The treatment of Account assets may have a material adverse effect on the Designated Beneficiary’s eligibility to receive assistance under various federal, state, and institutional financial aid programs. For federal financial aid purposes, Account assets will be considered assets of (i) a student’s parent, if the student is a dependent student and Account Owner is the parent or the student, or (ii) the student, if the student is the Account Owner and not a dependent student. For purposes of financial aid programs offered by states and educational institutions, the treatment of Account assets may or may not follow the treatment described above for federal financial aid purposes. However, financial aid programs administered by agencies of the State of Nebraska will not take Account assets into consideration, except as may be otherwise provided by federal law. Account Owners and Designated Beneficiaries are advised to consult a financial aid professional and/or the state or educational institution offering a particular financial aid program to determine how assets held in an Account may affect eligibility for financial aid.

**Possible Changes to the Plan.** The Nebraska State Treasurer, Nebraska Investment Council, the Program Manager and the Servicing Agent reserve the right to make changes to the Plan at any time. These changes may include changes to the Underlying Investments in which the Plan invests and changes to the expenses the Plan imposes. If the Underlying Investments are changed, the fees and expenses of the replacement investments may be higher or lower and the replacement investments may achieve different performance results than the Underlying Investments the Plan currently utilizes.

**Limitation on Investment Selection.** The Account Owner may only change the investment election for an Account twice per calendar year, or upon a change in Designated Beneficiary. If an Account Owner has multiple Accounts in the Plan for the same Designated Beneficiary, or multiple accounts in any other plan within the Trust, those Accounts will be aggregated for purposes of the twice per calendar year limitation above. Therefore, in the NEST Direct College Savings Plan, the NEST Advisor College Savings Plan, the TD Ameritrade 529 College Savings Plan, and the Plan, the Account Owner may change the Portfolios in all such accounts without tax consequences, so long as the changes to all of the accounts are made at the same time, but no more frequently than twice per calendar year or upon a change of Designated Beneficiary.

**Illiquidity of Account.** Funds in your Account will be subject to the terms and conditions of the Plan and the Participation Agreement. These provisions may limit your ability to withdraw funds or to transfer these funds. Under no circumstances may any Interest in an Account or the Plan be used as security for a loan.

**Medicaid and other federal and state benefits.** The effect of an Account on eligibility for Medicaid or other state and federal benefits is uncertain. It is possible that an Account will be viewed as a “countable resource” in determining an individual’s financial eligibility for Medicaid. Withdrawals from an Account during certain periods also may have the effect of delaying the disbursement of Medicaid payments. You should consult a qualified advisor to determine how an Account may affect eligibility for Medicaid or other state and federal benefits.

**FEDERAL AND STATE TAX CONSIDERATIONS**

The following discussion summarizes certain aspects of federal and state income, gift, estate and GST tax consequences relating to the Plan and Contributions to, earnings of and withdrawals from the Accounts. This summary is not exhaustive and is not intended as individual tax advice. In addition, there can be no assurance that the IRS or Nebraska Department of Revenue will accept the statements made herein or, if challenged, that such statements would be sustained in court. The applicable tax rules are complex, and some of the rules are at present uncertain, and their application to any particular person may vary according to facts and circumstances specific to that person. The Code and regulations thereunder, and judicial and administrative interpretations thereof are subject to change, retroactively and/or prospectively, and no one under the plan will be entitled to receive or be obligated to give notice of any such changes or modifications. A qualified legal or tax advisor should be consulted regarding the application of law in individual circumstances.
This summary is based on the relevant provisions of the Code, proposed Treasury regulations, and Nebraska State tax law. It is possible that Congress, the Treasury Department, the IRS, the State of Nebraska and other taxing authorities or the courts may take actions that will adversely affect the tax consequences described and that such adverse effects may be retroactive. No final tax regulations concerning the Plan have been issued by the IRS and, when issued, such regulations or rulings may alter the tax consequences summarized herein or necessitate changes in the Plan to achieve the tax benefits described. This summary does not address the potential effects on Account Owners or beneficiaries of the tax laws of any state other than Nebraska.

This section and all other statements in this Enrollment Handbook are (i) provided as general information in connection with the promotion or marketing of the Plan, (ii) not intended as individual tax advice to any person (including any Account Owner or Designated Beneficiary), and (iii) not provided or intended to be used, and cannot be used by any taxpayer, for the purpose of avoiding U.S. federal tax penalties.

Federal Income Tax Advantages of the Plan
There are two main federal income tax advantages to investing in the Plan:

- Investment earnings on the money you invest in the Plan will not be subject to federal income tax until they are distributed; and
- If the investment earnings are distributed as part of a Qualified Withdrawal, they are free from federal income tax.

There are also potential federal income tax disadvantages to an investment in the Plan. To the extent that a distribution from an Account is a Nonqualified Withdrawal, the portion of the Nonqualified Withdrawal attributable to investment earnings will be ordinary income to the recipient; no part of such earnings portion will be treated as capital gain. Under current law, the tax rates on ordinary income are generally greater than the tax rates on capital gain. Additionally, to the extent that a distribution is a Nonqualified Withdrawal, the federal income tax liability of the recipient will generally be increased by an amount equal to 10% of any earnings portion of the distribution includible in the recipient’s income. However, this additional 10% federal tax will not apply if the Nonqualified Withdrawal is paid to the Designated Beneficiary (or the estate of the Designated Beneficiary) on or after the death of the Designated Beneficiary or made on account of the disability of the Designated Beneficiary or to the extent of the amount of certain scholarships or other allowances or payments received by the Designated Beneficiary. A qualified rollover distribution is not subject to federal income tax or the additional 10% federal tax.

Certain Nebraska State Tax Consequences
The State of Nebraska generally does not impose state or local taxes on non-Nebraska residents. Therefore, if you live in any state other than Nebraska, you will likely not be subject to any taxation by the State of Nebraska with respect to your investment in the Plan. However, you may be subject to state and local taxes in the state(s) or municipality(ies) in which you pay income taxes.

Contributions, including the principal and earnings portions of rollovers from a Section 529 Plan not issued by the State of Nebraska, by an Account Owner are deductible in computing the Account Owner’s Nebraska taxable income for Nebraska income tax purposes in an amount not to exceed $5,000 ($2,500 for married taxpayers filing separate returns) in the aggregate for all Contributions to all accounts within the Trust in any taxable year before 2014. These limits increased to $10,000 ($5,000 if married filing separately) on January 1, 2014. For Contributions to be deductible for a given calendar year, they must be post-marked prior to the end of that year. You should obtain and retain receipts or other documentation that is adequate to substantiate that your Contribution was received prior to the end of the year. Neither the Servicing Agent, nor State Farm, may retain this documentation.

Minors filing a Nebraska state income tax return are eligible to take deductions for contributions to their UTMA/UGMA Account. Beginning January 1, 2014, contributions by custodians who are also parents or guardians of the minor may also be eligible to take deductions for their contributions to the minor’s Account, subject to applicable limits. The investment earnings of the Plan credited to an Account will not be includable in computing the Nebraska taxable income of either the Account Owner or the Designated Beneficiary of the Account so long as the earnings remain in the Account. Neither the Account Owner nor the Designated Beneficiary will be required to include any amount in computing his or her Nebraska taxable income for purposes of income tax to the extent such amount is not required to be included for federal income tax purposes of a qualifying beneficiary.

However, there are Nebraska state income taxes due on earnings paid out as a Nonqualified Withdrawal. For Nonqualified Withdrawals distributed to the Designated Beneficiary, the Designated Beneficiary is responsible for Nebraska state income tax on the earnings. For Nonqualified Withdrawals distributed to the Account Owner, the Account Owner is responsible for the Nebraska state income tax on the earnings. Nebraska law currently provides for the partial recapture of the Nebraska State tax benefits in the event a Participation Agreement is canceled. If you roll over assets in your Account to a qualified tuition program sponsored by another state or entity, you will be deemed to have canceled your Participation Agreement with respect to such assets. Additionally, to the extent that a distribution constitutes a Nonqualified Withdrawal, the Nebraska Department of Revenue will treat the distribution as an account cancellation. In general, an Account Owner’s taxable income will be increased by the amount of the cancellation distribution but only to the extent previously deducted by the Account Owner or, after January 1, 2014, the parent/guardian custodian of an UGMA/UTMA account. Before canceling a Participation Agreement, rolling assets to another qualified tuition program or requesting a Nonqualified Withdrawal, you should consult with your legal and tax advisors.

Before investing in the Plan, you should consider carefully the following:

- The laws of your home state or that of your Designated Beneficiary, as favorable state tax treatment or other benefits offered by such
home state for investing in a Section 529 Plan may be available only if you invest in such home state’s Section 529 Plan; and

- Any state-based benefit offered with respect to a particular Section 529 Plan should be one of the many appropriately weighted factors to be considered in making an investment decision.

You should also consult with your financial, tax or other advisor to learn more about how state-based benefits (including any limitations) would apply to your specific circumstances. You may also wish to contact your home state or any other Section 529 Plan to learn more about the features, benefits and limitations of that state’s Section 529 Plan.

Considerations for Non-Nebraska Residents

The Plan is offered to residents of all states. However, residents of states other than Nebraska should be aware that there may be state income tax or other benefits for investments in another state’s Section 529 Plan. For instance, several states offer unlimited state income tax deductions for contributions made only to their own state’s Section 529 Plan. Benefits such as these may generally not be available for Contributions made to the Plan, which is sponsored by the State of Nebraska. You should consult your legal or tax advisor for more information about state and local taxes.

The Plan may periodically participate in scholarship contests which award Plan contributions to contest winners. In some circumstances, contest participation may be limited to account owners who physically reside in the state of Nebraska. In other instances, the scholarship contest may be open to all account owners nationwide.

Federal Income Tax Treatment of the Trust, Contributions and Withdrawals

The Plan is designed to be a “qualified tuition program” under Code Section 529. As such, undistributed investment earnings in the Plan are exempt from federal income tax. Thus, earnings of the Plan credited to an Account are not includible in the federal gross income of the Account Owner or the Designated Beneficiary of the Account until funds are withdrawn, in whole or in part, from the Account. The treatment of a withdrawal from an Account under federal income tax law varies depending on the nature of the withdrawal.

If there are earnings in an Account, each withdrawal from the Account consists of two parts. One part is a return of the Contributions to the Account (the “Contributions Portion”). The other part is a withdrawal of earnings in the Account (the “Earnings Portion”). A pro rata calculation is made, as of the date on which a withdrawal is made, to determine the Earnings Portion and the Contributions Portion of the withdrawal.

Recent amendments to Code Section 529 have impacted the aggregation requirements applicable to Section 529 plan accounts for purposes of calculating the Earnings Portion of withdrawals made from such accounts after December 31, 2014. Although the implementation of these amendments is not entirely certain, starting with the 2015 tax year, the Servicing Agent and the Trustee intend to implement such amendments by no longer aggregating Accounts in the Plan with accounts in other Nebraska Section 529 plans (including accounts in the NEST Direct College Savings Plan, the NEST Advisor College Savings Plan, the TD Ameritrade 529 College Savings Plan, or any other savings type plan within the Trust) and by continuing to aggregate all Accounts in the Plan with the same Account Owner and Designated Beneficiary for purposes of determining the Earnings Portion and Contributions Portfolio of any withdrawal. The implementation of the new aggregation requirements as described herein is subject to such future guidance as may be issued by the IRS. In the event that future IRS guidance conflicts with the Servicing Agent’s and the Trustee’s implementation of the new aggregation requirements as described above, there may be a need for the Servicing Agent to issue amended Form 1099-Qs to recipients of such forms.

Qualified Withdrawals

If a Qualified Withdrawal is made from an Account, no portion of the withdrawal is includible in the gross income of the Designated Beneficiary or the Account Owner. Under certain circumstances, a portion of a Qualified Withdrawal may be subject to income tax if the total amount distributed in any year from the Account and from any Coverdell ESA for the same Designated Beneficiary exceeds such Designated Beneficiary’s total higher education costs for such year.

Qualified Rollover Distributions

A qualified rollover distribution is a withdrawal from an Account that is transferred or re-deposited within sixty (60) days to: (i) an account in a different state’s qualified tuition program for the benefit of the same Designated Beneficiary, provided that any such rollover does not occur within twelve months from the date of a previous transfer to a qualified tuition program for the same Designated Beneficiary or (ii) another account in the Trust, or another account in a different qualified tuition program, for a Designated Beneficiary who is a Member of the Family of the current Designated Beneficiary. No portion of a qualified rollover distribution is includible in the gross income of either the Designated Beneficiary or the Account Owner.

Nonqualified Withdrawals

To the extent that a withdrawal from an Account is a Nonqualified Withdrawal, the Earnings Portion of such Nonqualified Withdrawal is includible in the federal gross income of the recipient of the withdrawal for the year in which the withdrawal is made. In general, unless a Nonqualified Withdrawal is distributed directly to the Designated Beneficiary or to an Eligible Institution of Higher Education for the benefit of the Designated Beneficiary, the Account Owner is deemed to be the recipient of the withdrawal. If the Nonqualified Withdrawal is distributed directly to the Designated Beneficiary or to an Eligible Institution of Higher Education for the benefit of the Designated Beneficiary, the Designated Beneficiary is deemed to be the recipient of the withdrawal. The Contributions Portion is not includible in gross income.

1. See “Risks Related to Possible Future Changes in State and Federal Tax Law” on page 27.
A Nonqualified Withdrawal will also be subject to an “additional tax” equal to 10% of the earnings portion of the withdrawal, subject to the following exceptions:

- The Account’s Designated Beneficiary dies and a distribution is made from the Account to the Designated Beneficiary’s estate.
- The Account’s Designated Beneficiary becomes disabled (within the meaning of Code Section 72(m)(7)) and a withdrawal is made by the Account Owner or a distribution is made to the Designated Beneficiary.
- The Account’s Designated Beneficiary receives a scholarship, allowance, or payment described in Code Section 25A(g)(2) and a withdrawal by the Account Owner or distribution to the Designated Beneficiary is made and it does not exceed the amount of the scholarship, allowance, or payment.
- One or more Education Tax Credits are allowed to any person for payment of the Designated Beneficiary’s Qualified Higher Education Expenses and the Earnings Portion of the part of the Nonqualified Withdrawal does not exceed such expenses.
- The Account’s Designated Beneficiary attends the United States Military Academy, the United States Naval Academy, the United States Air Force Academy, the United States Coast Guard Academy, or the United States Merchant Marine Academy and a Nonqualified Withdrawal from an Account does not exceed the costs of “advanced education,” as that term is defined in 10 U.S.C. Section 2005(e)(3), attributable to such attendance.

Change of Beneficiaries

A change in the Designated Beneficiary of an Account is not treated as a distribution if the new Designated Beneficiary is a Member of the Family of the current Designated Beneficiary. However, if the new Designated Beneficiary is not a Member of the Family of the current Designated Beneficiary, the change is treated as a Nonqualified Withdrawal by the Account Owner.

A change in the Designated Beneficiary of an Account or a transfer to an account for another Designated Beneficiary may have federal gift tax or GST tax consequences.

Federal Gift, Estate and Generation-Skipping Transfer Taxes

Contributions to an Account are considered completed gifts to the Designated Beneficiary of the Account for federal estate, gift and GST tax purposes. Except as described below, if an Account Owner dies while there is a balance in the Account, the value of the Account is not includible in the Account Owner’s gross estate for federal estate tax purposes. However, amounts in an Account at the death of the Designated Beneficiary are includible in the Designated Beneficiary’s gross estate to the extent such amounts are paid to the Designated Beneficiary’s estate or as otherwise provided by the Code.

A donor’s gifts to a donee in any given year will not be taxable if the gifts are eligible for, and do not in total exceed, what is known as the gift tax “annual exclusion” for such year. For 2015, the annual exclusion is $14,000 per donee, or twice that amount for a married donor whose spouse elects on a federal gift tax return to “split” gifts with the donor. The annual exclusion is indexed for inflation and is therefore expected to increase over time.

Under Code Section 529, an Account Owner’s Contributions to Accounts for a Designated Beneficiary are eligible for the gift tax annual exclusion. Contributions that qualify for the annual gift tax exclusion are also excludible for purposes of the federal GST tax. Accordingly, as long as the Account Owner’s total Contributions to Accounts for the Designated Beneficiary in any year (together with any other gifts by the Account Owner to the Designated Beneficiary in such year) do not exceed the annual exclusion amount for such year, the Account Owner’s Contributions will not be considered taxable gifts and will be excludible for purposes of the GST tax.

In addition, if an Account Owner’s total Contributions to Accounts for a Designated Beneficiary in a single year exceed the annual exclusion for such year, the Account Owner may elect to treat Contributions that total up to five times the annual exclusion (or up to ten times if the donor and his or her spouse split gifts) as having been made ratably over a five-year period. Consequently, a single donor may contribute up to $70,000 in a single year without incurring federal gift tax, so long as the donor makes no other gifts to the same Designated Beneficiary during the calendar year in which the Contribution is made and each of the following four calendar years. (Note that an election to have the Contribution taken into account over a five-year period must be made by the donor on a federal gift tax return.)

For example, an Account Owner who makes a $70,000 Contribution to an Account for a Designated Beneficiary in 2014 may elect to have that Contribution treated as a $14,000 gift in 2015 and a $14,000 gift in each of the following four calendar years. If the Account Owner makes no other Contributions or gifts to the Designated Beneficiary before January 1, 2020, the Account Owner will not be treated as having made any taxable gifts to the Designated Beneficiary during that five-year period. As a result, the $70,000 Contribution will not be treated as a taxable gift and will be excludible for purposes of the GST tax. However, if the Account Owner dies before the first day of the fourth calendar year following the calendar year of the prorated gift, the portion of the Contributions allocable to calendar years after the year of death will be includible in the Account Owner’s gross estate for federal estate tax purposes.

A change of the Designated Beneficiary of an Account or a transfer to an account for another Designated Beneficiary may be subject to federal gift and/or GST tax if the new Designated Beneficiary is (i) not a Member of the Family of the current Designated Beneficiary, or (ii) in a younger generation than the current Designated Beneficiary. A change of Account Ownership may also be subject to gift and/or GST tax. Accordingly, Account Owners should consult their tax advisors for guidance when considering a change of Designated Beneficiary and/or Account Ownership.

Although updated Enrollment Handbooks and disclosures have been provided to Account Owners on a timely basis, annual information for
fiscal years 2010 and 2011 were filed with the Municipal Securities
Rulemaking Board subsequent to the date required with no material
consequences to the Plan and without constituting a default under the
Participation Agreement.

STATE FARM COLLEGE SAVINGS PLAN PARTICIPATION
AGREEMENT

By completing and signing an Enrollment Application or otherwise
establishing an Account in the Plan (through your State Farm
Registered Representative), the Account Owner (also referred to as
“you”) hereby requests the Trust to maintain an Account for the benefit
of a particular Designated Beneficiary pursuant to the following terms
and conditions:

All terms not defined herein are given the same meanings assigned to
them in the Enrollment Handbook.

Section 1. Accounts and Beneficiaries

(a) The Accounts. The Trust will maintain a separate Account for each
Designated Beneficiary. Each Account will be governed by this
Participation Agreement, as amended from time to time. All assets
held in your Accounts will be held for the exclusive benefit of you
and your Designated Beneficiary as provided by applicable law and
regulation.

Your Account will be part of that series of beneficial interests in the Trust
that has been designated as The State Farm College Savings Plan. The
Accounts are sold under the name “The State Farm College Savings
Plan” pursuant to an agreement between State Farm VP Management
Corp., OFI Private Investments Inc., OppenheimerFunds Distributor,
Inc., the Trust and the Program Manager. Money deposited into an
Account will be invested in the Portfolio or Portfolios that you designate
which will be managed and administered by OFI Private Investments
Inc. and its affiliates.

(b) Naming and Changing Beneficiaries. You will name the Designated
Beneficiary for an Account in the Enrollment Application. You may
change the Designated Beneficiary at any time, subject to
applicable law and regulation. To avoid adverse income tax
consequences, a new Designated Beneficiary must be a Member
of the Family of the former Designated Beneficiary. The
designation of the new Designated Beneficiary will be effective
upon receipt of the appropriate form In Good Order by the
Servicing Agent.

(c) UTMA/UGMA Accounts. A custodian under a UTMA/UGMA may
establish an Account using monies held for the benefit of a
particular Designated Beneficiary by executing an Enrollment
Application. The Designated Beneficiary of the Account must be
the same as the UTMA/UGMA beneficiary. The UTMA/UGMA
custodian will be registered as the Account Owner until the
Designated Beneficiary reaches the age of majority under the
UTMA/UGMA statute under which the original custodianship was
created, and the UTMA/UGMA custodian may not change the
Designated Beneficiary of the Account.

(d) Trusts. A trust which has a valid federal taxpayer identification
number may establish an Account, but neither the State of
Nebraska, the Trust, the Trustee, the Nebraska Investment
Council, the Servicing Agent, the Program Manager, the Plan
Distributor, State Farm VP Management Corp., nor any of their
respective affiliates, directors, officers or agents will assume the
responsibility to ensure or incur liability for failing to ensure that the
ownership and maintenance of the Account is consistent with the
trust document or applicable state trust law, nor will they be
responsible for advising the trustee on any issues related to the
application of state or federal tax and/or probate laws to the trust’s
investment in the Plan.

Section 2. Contributions

(a) Contributions To be in Cash. All Contributions must be in cash.
Cash means only (i) checks, (ii) AIP, (iii) EFT, (iv) payroll
deduction, (v) funds wired through the Federal Reserve system, or
(vi) redemption funds from a Coverdell ESA, another qualified
tuition program, an UGMA or UTMA account, or a State Farm
account. Third-party checks will only be accepted at the Plan
Distributor’s discretion. Money orders will not be accepted.

You may not make additional Contributions if (i) a total of $360,000
has already been contributed to all accounts in the Trust for the same
Designated Beneficiary regardless of Account Owner, or (ii) an
additional Contribution would cause the fair market value of all accounts
in the Trust for the same Designated Beneficiary, regardless of Account
Owner, to exceed $360,000.

(b) Minimum Contributions and Account Size Limit. The minimum
initial Contribution is $250 per Account with subsequent
investments of at least $50 per Portfolio.

(c) Right to Refuse Contributions. A Contribution, rollover or transfer
may be refused if the Servicing Agent reasonably believes that
(i) the purpose is for other than funding the Qualified Higher
Education Expenses of the Designated Beneficiary of an Account,
(ii) there appears to be an abuse of the Plan, or (iii) such
transaction is unlawful. The Plan may not be able to determine that
a specific Contribution, rollover or transfer is for other than funding
the Qualified Higher Education Expenses of a Designated
Beneficiary, abusive or unlawful. The Plan therefore makes no
representation that all such Contributions, rollovers or transfers can or
will be rejected.

(d) Acceptable Contribution Methods. Contributions to an Account may
be made by check, automatic payment from the Account Owner’s
bank account or other financial institution, EFT, federal funds wire
or payroll deduction if the Account Owner’s employer offers this
option, or any other method permitted by Nebraska law and the
Code. An authorization to make automatic payments will remain in
effect until the Servicing Agent has received written notification of
its termination. Account Owners or the Servicing Agent may
terminate automatic payments at any time. Any termination of
automatic payments authorization initiated by an Account Owner
must either be made in writing, by calling The State Farm College
Savings Plan at 1-800-321-7520, or by completing the appropriate
section online and will become effective as soon as the Plan has
had a reasonable amount of time to implement the change. All
Contributions must be in cash. The Plan cannot accept securities or other property. Rollover Contributions to an Account from another qualified tuition plan must be accompanied by the Rollover Form and any other required documentation.

Section 3. Withdrawals

(a) You may direct the Servicing Agent, as agent for the Trustee, to distribute part or all of the money in your Account at any time. References to the Servicing Agent in this Section 3 refer to the Servicing Agent acting on behalf of, or as agent for, the Trustee.

(b) If the proposed distribution is to be paid directly to you or the Designated Beneficiary, then the Servicing Agent will distribute the entire amount requested by you, less any applicable CDSCs. The Servicing Agent can provide you with notice of any CDSC assessed.

(c) If you request a distribution to pay the Qualified Higher Education Expenses of the Designated Beneficiary and the Designated Beneficiary receives a refund of any payment of Qualified Higher Education Expenses from an Eligible Institution of Higher Education, the amount withdrawn will not be includible in income to the extent it is recontributed to an Account for which the Designated Beneficiary is the beneficiary, but only to the extent such re contribution is made not later than 60 days after the date of such refund and does not exceed the refunded amount. You are responsible for identifying to the Servicing Agent any contribution to an Account that qualifies for the treatment described in this paragraph and for certifying to the Servicing Agent that the conditions for such treatment have been satisfied.

(d) Notwithstanding any other provision of this agreement, the Servicing Agent may terminate a Participation Agreement and distribute the balance of an Account to you upon its determination that you or the Designated Beneficiary has provided false or misleading information to the Trust, the Servicing Agent, State Farm VP Management Corp., the Servicing Agent or an Eligible Institution of Higher Education. Upon such a finding and a termination, the Servicing Agent will assess any applicable CDSCs. The Servicing Agent will pay you the balance remaining in the Account after any such assessment.

Section 4. Your Representations and Acknowledgments

By establishing an Account, you represent and warrant and agree as follows:

(a) You have received and read the Enrollment Handbook for The State Farm College Savings Plan and have carefully reviewed all the information contained therein, including information provided by or with respect to the Trust, the Servicing Agent, the Program Manager, the Plan Distributor and State Farm VP Management Corp.

(b) You acknowledge and agree that the value of your Account will increase or decrease based on the investment performance of the investment Portfolios of the Trust in which the Account is then invested. You understand that the value of any Account may be more or less than the amount invested in the Account. You agree that all investment decisions will be made by the Nebraska Investment Council or any other adviser hired by the Trust, including OFI Private Investments Inc. and that neither you nor the Designated Beneficiary will control the investment of any funds invested in the Trust, either directly or indirectly. You also acknowledge and agree that neither the State of Nebraska, the Trust, the Trustee, the Nebraska Investment Council, the Program Manager, the Plan Distributor, the Servicing Agent, nor State Farm VP Management Corp., nor any of their respective affiliates, directors, officers or agents makes any guarantee that you will not suffer a loss of the amount invested in any Account.

(c) You understand that so long as the Program Manager, Servicing Agent, Plan Distributor, State Farm VP Management Corp., or any of their respective affiliates, directors, officers or agents are performing services for the Trust, it may follow the directives of the Trustee and the Nebraska Investment Council, and when acting in such capacity, it will have no liability to you or any other intended or unintended third-party beneficiary of this agreement.

(d) You acknowledge and agree that participation in the Plan does not guarantee that any Designated Beneficiary: (i) will be accepted as a student by an Eligible Institution of Higher Education; (ii) if accepted, will be permitted to continue as a student; (iii) will be treated as a resident of any state for tuition purposes; (iv) will graduate from any Eligible Institution of Higher Education; (v) will achieve any particular treatment under applicable state or federal financial aid programs or (vi) will have his or her Qualified Higher Education Expenses at any Eligible Institution of Higher Education covered in full by amounts invested by an Account Owner. You also acknowledge and agree that neither the State of Nebraska, the Trust, the Trustee, the Nebraska Investment Council, the Program Manager, the Servicing Agent, the Plan Distributor, nor State Farm VP Management Corp., nor any of their respective affiliates, directors, officers or agents makes any such representation or guarantee.

(e) You acknowledge and agree that no Account will be used as collateral for any loan. Any attempted use of an Account as collateral for a loan will be void.

(f) You acknowledge and agree that the Trust will not loan any assets to you or the Designated Beneficiary.

(g) You acknowledge and agree that the Trust is established and maintained by the Treasurer of the State of Nebraska, pursuant to state law, and is intended to qualify for certain federal income tax benefits under Code Section 529. You further acknowledge that such federal and state laws are subject to change, sometimes with retroactive effect, and that neither the State of Nebraska, the Trust, the Trustee, the Nebraska Investment Council, the Program Manager, the Servicing Agent, the Plan Distributor, nor State Farm VP Management Corp., nor any of their respective affiliates, directors, officers or agents makes any representation that such state or federal laws will not be changed or repealed.
You acknowledge that the Plan Distributor or one of its affiliates will pay the Program Manager certain fees, as described in the Enrollment Handbook, for services rendered in connection with the administration of the Plan.

(i) You acknowledge that the Trust is the record owner of the shares of the Underlying Investments in which each Portfolio is invested and that you will have no right to vote, or direct the voting of, any proxy with respect to such shares.

(ii) You acknowledge that any discussion of federal and state income tax consequences in the Enrollment Handbook is (i) provided as general information in connection with the promotion or marketing of the Plan, (ii) not intended as individual tax advice to any person (including any Account Owner or Designated Beneficiary), and (iii) not provided or intended to be used, and cannot be used by any taxpayer, for the purpose of avoiding U.S. federal tax penalties.

Section 5. Fees and Expenses
The Trust will make certain charges against the Portfolios and each Account in order to provide for the costs of administration of the Accounts and such other purposes as the Nebraska Investment Council shall determine appropriate.

(a) Investment Management Fees. You acknowledge that each of the Underlying Investments in which the Portfolios invest will have investment management fees and other expenses associated with them.

(b) Sales Charges, State Administrative Fees, and Annual Asset Based Fees. Applicable sales charges, state administrative fees, and annual asset based fees are set forth in the Enrollment Handbook.

(c) Change in Fees. You acknowledge and agree that the charges described above may be increased or decreased as the Trustee or the Nebraska Investment Council shall determine to be appropriate.

Section 6. Necessity of Qualification
The Trust intends to qualify for favorable federal tax treatment under Code Section 529. You acknowledge and agree that the Trustee may amend this agreement upon a determination that such an amendment is required to maintain such qualification.

Section 7. Audit
The Trustee shall cause the Trust and its assets to be audited at least annually by a certified public accountant or the State Auditor for the State of Nebraska. A copy of the annual report may be obtained by calling The State Farm College Savings Plan at 1-800-321-7520, weekdays, 7:30 a.m. to 7:00 p.m. Central Time.

Section 8. Reporting
The Trust, through the Servicing Agent, will provide you with quarterly and annual reports of your Account activity and the value of your Account.

Section 9. Account Owner’s Indemnity
You recognize that each Account will be established based upon your statements, agreements, representations and warranties set forth in this agreement and the Enrollment Application. You agree to indemnify and to hold harmless the State of Nebraska, the Trust, the Trustee, the Nebraska Investment Council, the Program Manager, the Plan Distributor, the Servicing Agent, State Farm VP Management Corp., and their respective affiliates, directors, officers and agents from and against any and all loss, damage, liability or expense, including costs of reasonable attorneys’ fees to which they may be put or which they may incur by reason of, or in connection with, any breach by you of your acknowledgments, representations or warranties or any failure of you to fulfill any covenants or agreements set forth herein. You agree that all statements, representations and warranties will survive the termination of your Account.

Section 10. Limited Investment Direction
No Account Owner, Designated Beneficiary or contributor may direct the investment of any Contributions or any earnings thereon either directly or indirectly, other than to select from the available Portfolios prior to a Contribution. In addition, Account Owners may not choose the Underlying Investments in which a Portfolio invests. However, the federal tax rules as of the date this Participation Agreement was printed allow Account Owners to move Contributions or any earnings thereon from one or more Portfolios to one or more other Portfolios for all Accounts for the same Designated Beneficiary in the Trust either (i) twice per calendar year, or (ii) when the Account Owner changes the Designated Beneficiary from the existing Designated Beneficiary to a Member of the Family of the existing Designated Beneficiary (such transfer will be free from income tax and the additional 10% federal tax on earnings, but may result in gift or generation-skipping transfer tax consequences). In the event that future tax rules governing investment discretion with respect to Section 529 Plans provide greater investment flexibility for the participants of Section 529 Plans, it is the intent of the Trustee to adjust the Trust’s rules accordingly. However, to the extent future tax rules are more restrictive than those described in this Participation Agreement or the Enrollment Handbook, both shall be deemed to be automatically amended to reflect such more restrictive rules. No Interest in an Account or any portion thereof shall be used as security for a loan.

Section 11. Separate Accounting
The State Farm College Savings Plan shall provide a separate accounting for each Designated Beneficiary.

Section 12. Factual Determinations
All factual determinations regarding an Account Owner’s or Designated Beneficiary’s residency, disability, the existence of hardship, and any other factual determinations regarding Accounts will be made by the Servicing Agent based on the facts and circumstances of each case.

Section 13. Severability
In the event any clause or portion of this Participation Agreement is found to be invalid or unenforceable by a court of competent jurisdiction, that clause or portion shall be severed from this Participation Agreement and the remainder of this Participation Agreement shall continue in full force and effect as if such clause or portion had never been included.
Section 14. Extraordinary Events
The Program Parties shall not be liable for losses caused directly or indirectly by government restrictions, exchange or market rulings, suspension of trading, war, acts of terrorism, strikes or other conditions beyond their control.

Section 15. Complete Agreement
This Participation Agreement, and the Enrollment Handbook that is hereby incorporated into this Participation Agreement, is the complete and exclusive statement of the agreement between the parties hereto, which supersedes any prior agreement, oral or written, and any other communications between the parties hereto relating to the subject matter of this Participation Agreement. This Participation Agreement is offered by the Trustee and will be deemed a binding agreement upon acceptance by the Trustee of the Account Owner’s Enrollment Application. The Account Owner has not relied on any representations or other information, whether oral or written, other than as set forth in the Enrollment Handbook and in this Participation Agreement.

Section 16. Amendment and Termination
Nothing contained in this Participation Agreement shall constitute an agreement or representation by the Trustee or anyone else that the Trust will continue in existence. At any time, the Trustee may amend this Participation Agreement or suspend or terminate the Trust by giving written notice of such action to you, so long as, after the action, the assets in your Account are either distributed to you or are still held for the exclusive benefit of you and your beneficiaries.

Section 17. Governing Law
This Participation Agreement shall be governed and interpreted in accordance with the laws of the State of Nebraska. All parties agree that venue for any legal proceedings related to this Participation Agreement or the Plan shall be in the State of Nebraska.

ADDITIONAL INFORMATION REGARDING THE UNDERLYING INVESTMENTS
Following are descriptions of the principal investment strategies and risks associated with investments that the Plan utilizes as Underlying Investments. These descriptions are taken from the Underlying Investments’ prospectus, statement of additional information, or other offering documents, as applicable. To obtain complete offering materials for any of the mutual funds, please visit [web link for OppenheimerFunds] or call OppenheimerFunds at 1-800-525-7048, visit [web link for Federated Investors] or call Federated at 1-800-245-5051, or visit [web link for State Farm College Savings Plan] or call State Farm at 1-800-447-4930 and obtain a free prospectus or Annual or Semi-Annual Report.

State Farm Bond Fund
Investment Objective
The State Farm Bond Fund (the “Bond Fund”) seeks to realize over a period of years the highest yield consistent with investing in investment grade bonds.

Investment Process
The Bond Fund invests primarily in investment grade bonds issued by U.S. companies, U.S. government and agency obligations, and mortgage backed securities. Under normal circumstances, the Bond Fund invests at least 80% of its net assets plus any borrowings in investment grade bonds or in bonds that are not rated, but that the Manager has determined to be of comparable quality. A bond is investment grade if Moody’s Investors Service, Inc. (“Moody’s”) or Standard & Poor’s (“S&P”) has rated the bond in one of their respective four highest rating categories. Non-investment grade bonds are commonly referred to as “junk bonds.” The Bond Fund may invest in any of the following instruments:

- Corporate Debt Securities: investment grade securities issued by corporations and to a limited extent (up to 20% of its assets), in lower rated securities
- U.S. Government Debt Securities: securities issued or guaranteed by the U.S. Government or its agencies or instrumentalities
- Foreign Government Debt Securities: investment grade securities issued or guaranteed by a foreign government or its agencies or instrumentalities, payable in U.S. dollars
- Asset Backed and Mortgage Backed Securities: investment grade securities backed by mortgages, consumer loans and other assets
- Other Issuer Debt Securities: the Fund may invest up to 20% of its assets in non-investment grade debt securities and preferred stocks that are convertible into common stocks as well as nonconvertible preferred stocks or securities.

Principal Risks
The Fund is primarily subject to management risk, interest rate risk, call risk, prepayment risk, credit risk, high yield, high risk securities risk, liquidity risk and income risk.

Federated U.S. Government Securities Fund: 1-3 Years
Investment Objective
The Fund’s investment objective is to provide current income.

Investment Process
The Fund’s overall strategy is generally to invest in a portfolio consisting primarily of U.S. Treasury securities, U.S. government agency securities with maturities of not less than one year and not more than three years, and related derivative contracts. The Fund buys and sells portfolio securities based primarily on its market outlook and analysis of how securities may perform under different market conditions. The Fund evaluates its investment strategy by comparing the performance and composition of the Fund’s portfolio to the performance and composition of an index composed of U.S. Treasury notes and bonds with maturities greater than or equal to one year and less than three years.

Certain of the government securities in which the Fund invests include government securities that are not backed by the full faith and credit of...
the U.S. government, such as those issued by the Federal Home Loan Mortgage Corporation (Freddie Mac), the Federal National Mortgage Association (Fannie Mae), and the Federal Home Loan Bank System. Some government securities, including those issued by Government National Mortgage Association (Ginnie Mae), are supported by the full faith and credit of the United States. Other government securities receive support through federal subsidies, loans and other benefits. A few government securities have no explicit financial support, but are regarded as having implied support because the federal government sponsors their activities. The Fund may also invest in government agency MBS and agency CMBS.

**Principal Risks**

The Fund is primarily subject to interest rate risk, liquidity risk, leverage risk, risk of inflation-protected securities, and derivative investments risk.

**Oppenheimer Capital Appreciation Fund**

**Investment Objective**

The Fund’s investment objective is to seek capital appreciation.

**Investment Process**

The Fund mainly invests in common stocks of companies that the portfolio manager believes are undervalued. The Fund may also invest in other equity securities, such as preferred stock, rights, warrants and securities convertible into common stock. The Fund may buy securities issued by companies of any size or market capitalization range and at times might increase its emphasis on securities of issuers in a particular capitalization range. While the Fund does not limit its investments to issuers in a particular capitalization range, the portfolio manager currently focuses on securities of larger-size companies. The Fund may invest up to 25% of its total assets in foreign securities of companies or governments in any country, including in developed and emerging market countries. The Fund may invest up to 10% of its net assets in debt securities. In selecting investments for the Fund’s portfolio, the portfolio manager looks for companies he believes have been undervalued by the market. A security may be undervalued because the market is not aware of the issuer’s intrinsic value, does not yet recognize its future potential, or the issuer may be temporarily out of favor. The Fund seeks to realize gains in the prices of those securities when other investors recognize their real or prospective worth. The portfolio manager uses a “bottom up” approach to select securities one at a time before considering industry trends. The portfolio manager uses fundamental analysis to select securities based on factors such as a company’s long-term earnings and growth potential. The portfolio manager currently focuses on companies with the following characteristics, which may vary in particular cases and may change over time:

- Attractive valuation,
- Future supply/demand conditions for its key products,
- Product cycles,
- Quality of management,
- Competitive position in the market place,
- Reinvestment plans for cash generated, and
- Better-than-expected earnings reports.

The portfolio manager also monitors individual issuers for changes in their business fundamentals or prospects that may trigger a decision to sell a security, but does not require a decision to do so. The portfolio manager may consider selling a stock for one or more of the following reasons:

- the stock price is approaching its price target,
- the company’s fundamentals are deteriorating, or
- alternative investment ideas have been developed.

**Principal Risks**

The Fund is primarily subject to risks of investing in stocks, risks of other equity securities, industry and sector focus risk, risks of value investing and risks of foreign investing.

**Oppenheimer Value Fund**

**Investment Objective**

The Fund seeks capital appreciation.

**Investment Process**

The Fund’s investment objective is to seek capital appreciation. The Fund’s investment objective is to seek capital appreciation. The Fund’s investment objective is to seek capital appreciation. The Fund’s investment objective is to seek capital appreciation.
Oppenheimer Main Street Mid Cap Fund®

Investment Objective
The Fund seeks capital appreciation.

Investment Process
Under normal market conditions, the Fund will invest at least 80% of its net assets, including any borrowings for investment purposes, in securities of "mid cap" companies. A company's "market capitalization" is the value of its outstanding common stock. The Fund considers mid cap companies to be those having a market capitalization in the range of the Russell Midcap® Index, a measure of mid cap issuers. The capitalization range of the index is subject to change at any time due to market activity or changes in the composition of the index. The range of the Russell Midcap® Index generally widens over time and is reconstituted annually to preserve its mid cap characteristic. The Fund measures a company's capitalization at the time the Fund buys a security and is not required to sell a security if the company's capitalization moves outside of the Fund's capitalization definition.

The portfolio managers use both fundamental research and quantitative models to identify investment opportunities. While the process may change over time or vary in particular cases, in general the selection process currently:

- aims to maintain broad diversification across all major economic sectors;
- uses quantitative models, including sector-specific factors, to rank securities within each economic sector;
- uses a fundamental approach to analyze issuers based on factors such as a company's financial performance, competitive strength, industry position, business practices and management; and
- considers market trends, current industry outlooks and general economic conditions.

In constructing the portfolio, the Fund seeks to limit exposure to so-called "top-down" or "macro" risks, such as overall stock market movements, economic cycles, and interest rate or currency fluctuations. Instead, the portfolio managers seek to add value by selecting individual securities with superior company-specific fundamental attributes or relative valuations that they expect to outperform their industry and sector peers. This is commonly referred to as a "bottom-up" approach to portfolio construction.

The portfolio managers consider stock rankings, benchmark weightings and capitalization outlooks in determining security weightings for individual issuers. Although the Fund mainly invests in U.S. companies, it can invest in securities issued by companies or governments in any country. The Fund primarily invests in common stock but may also invest in other types of securities, such as units of master limited partnerships or other securities that are consistent with its investment objective.

The portfolio managers might sell a security if the price is approaching their price target, if the company’s competitive position has deteriorated or the company’s management has performed poorly, or if they have identified more attractive investment prospects.

Principal Risks
The Fund is primarily subject to risks of investing in stocks, risks of mid-cap companies and industry and sector focus risk.

Oppenheimer International Growth Fund

Investment Objective
The Fund seeks capital appreciation.

Investment Process
The Fund mainly invests in the common stock of growth companies that are domiciled or have their primary operations outside of the United States. It may invest 100% of its assets in securities of foreign companies. The Fund may invest in emerging markets as well as in developed markets throughout the world. From time to time it may place greater emphasis on investing in one or more particular regions such as Asia, Europe or Latin America. Under normal market conditions the Fund will:

- invest at least 65% of its total assets in common and preferred stocks of issuers in at least three different countries outside of the United States, and
- emphasize investments in common stocks of issuers that the portfolio managers consider to be "growth" companies.

The Fund does not limit its investments to issuers within a specific market capitalization range and at times may invest a substantial portion of its assets in one or more particular capitalization ranges. The Fund can also buy securities convertible into common stock and other securities having equity features. The Fund can use hedging and certain derivative instruments to seek capital appreciation or to try to manage investment risks.

In selecting investments for the Fund’s portfolio, the portfolio managers evaluate investment opportunities on a company-by-company basis. The portfolio managers look primarily for foreign companies with high growth potential using a “bottom up” investment approach, that is, by looking at the investment performance of individual stocks before considering the impact of general or industry-specific economic trends. This approach includes fundamental analysis of a company’s financial statements and management structure and consideration of the company’s operations, product development, and industry position.

The portfolio managers currently focus on the following factors, which may vary in particular cases and may change over time:

- companies that enjoy a strong competitive position and high demand for their products or services,
- companies with accelerating earnings growth and cash flow, and
- diversity among companies, industries and countries to help reduce the risks of foreign investing, such as currency fluctuations and stock market volatility.
The portfolio managers also consider the effect of worldwide trends on the growth of particular business sectors and look for companies that may benefit from those trends. The trends currently considered include: mass affluence, new technologies, restructuring and aging. The portfolio managers do not invest any fixed amount of the Fund’s assets according to these criteria and the trends that are considered may change over time. The portfolio managers monitor individual issuers for changes in the factors above, which may trigger a decision to sell a security, but does not require a decision to do so.

Principal Risks

The fund is primarily subject to the risks of investing in stocks, industry and sector focus risk, risks of foreign investing, Eurozone investment risks, risks of developing and emerging markets, risks of small- and mid-cap companies and risks of growth investing.

Opportunities for Developing Markets

Investment Objective

The Fund seeks capital appreciation.

Investment Process

The Fund mainly invests in common stocks of issuers in developing and emerging markets throughout the world and at times it may invest up to 100% of its total assets in foreign securities. Under normal market conditions, the Fund will invest at least 80% of its net assets, plus borrowings for investment purposes, in equity securities of issuers whose principal activities are in a developing market, i.e. are in a developing market or are economically tied to a developing market country. The Fund will invest in at least three developing markets. The Fund focuses on companies with above-average earnings growth.

In general, countries may be considered developing or emerging markets if they are included in any one of the Morgan Stanley Capital Index (“MSCI”) emerging markets indices, classified as a developing or emerging market, or classified under a similar or corresponding classification, by organizations such as the World Bank and the International Monetary Fund, or have economies, industries and stock markets with similar characteristics. For purposes of the Fund’s investments, a determination that an issuer is economically tied to a developing market country is based on factors including, but not limited to, geographic location of its primary trading markets, location of its assets, its domicile or its principal offices, or whether it receives revenues from a developing market. Such a determination can also be based, in whole or in part, on inclusion of an issuer or its securities in an Index representative of developing or emerging markets.

In seeking exposure to Class A-shares of Chinese companies (“China A Shares”), the Fund may invest in OFI Global China Fund, LLC (the “China Fund”), a private investment vehicle organized under the laws of Delaware that intends to invest significantly in China A Shares. The China A Shares market is an active Chinese market that includes a large number of Chinese equities as well as smaller or emerging Chinese companies that may not list shares elsewhere. The Fund’s investment in the China Fund may vary based on the portfolio manager’s use of different types of investments that provide exposure to Chinese securities. Since the Fund may invest a portion of its assets in the China Fund, which may hold certain of the investments described in the Fund’s prospectus, the Fund may be considered to be investing indirectly in those investments through the China Fund. Therefore, references in the Fund’s prospectus to investments by the Fund also may be deemed to include the Fund’s indirect investments through the China Fund.

In selecting investments for the Fund, the portfolio manager evaluates investment opportunities on a company-by-company basis. This approach includes fundamental analysis of a company’s financial statements, management record, and capital structure, operations, product development, and competitive position in its industry. The portfolio manager also looks for newer or established businesses that are entering into a growth cycle, have the potential for accelerating earnings growth or cash flow, and possess reasonable valuations. The portfolio manager considers the effect of worldwide trends on the growth of particular business sectors and looks for companies that may benefit from those trends and seeks a diverse mix of industries and countries to help reduce the risks of foreign investing, such as currency fluctuations and stock market volatility. The portfolio manager may invest in growth companies of different capitalization ranges in any developing market country. The portfolio manager monitors individual issuers for changes in the factors above, which may trigger a decision to sell a security.

Principal Risks

The fund is primarily subject to the risks of investing in stocks, industry and sector focus risk, risks of investing in the China Fund, risks of foreign investing, risks of developing and emerging markets, Eurozone investment risks, risks of small- and mid-cap companies and risks of growth investing.

Opportunities for Global Strategic Income

Investment Objective

The Fund seeks total return.

Investment Process

The Fund invests mainly in debt securities in three market sectors: foreign governments and issuers, U.S. government securities, and lower-grade, high-yield securities of U.S. and foreign issuers (commonly referred to as “junk bonds”). A debt security is a security representing money borrowed by the issuer that must be repaid. The terms of a debt security specify the amount of principal, the interest rate or discount, and the time or times at which payments are due.

Under normal market conditions, the Fund invests in each of the three market sectors. However, it is not required to invest in all three sectors at all times, and the amount of its assets in each of the three sectors will vary. The Fund can invest up to 100% of its assets in any one sector at any time, which means that it may have 100% of its assets invested in junk bonds. Under normal market conditions, the Fund will invest a substantial portion of its assets in a number of different countries, including the U.S. The Fund is not required to allocate its investments in
any set percentages in any particular countries. The Fund may also invest in securities outside of these three market sectors, as further described in the Fund’s prospectus and the Fund’s Statement of Additional Information. The Fund’s foreign investments may include debt securities of issuers in both developed and emerging markets. The Fund has no limitations regarding the range of maturities of the debt securities it can buy or the market capitalization of the issuers of those securities.

The Fund’s investments typically include foreign and U.S. government bonds and notes, collateralized mortgage obligations (CMOs), other mortgage-related securities, corporate debt obligations, including lower-grade, high-yield domestic and foreign corporate debt obligations, "structured" notes, participation interests in loans, investments in pooled investment entities (including those that invest in loans), asset-backed securities and “zero coupon” and “stripped” securities.

The Fund can invest in investment grade or lower-grade, high-yield debt securities. “Investment grade” debt securities are rated in one of the top four rating categories by nationally recognized statistical rating organizations such as Moody’s Investors Service or Standard & Poor’s. The Fund may also invest in unrated securities, in which case the Fund’s Sub-Adviser, OppenheimerFunds, Inc., may internally assign ratings to certain of those securities, after assessing their credit quality, in investment-grade or below-investment-grade categories similar to those of nationally recognized statistical rating organizations. There can be no assurance, nor is it intended, that the Sub-Adviser’s credit analysis is consistent or comparable with the credit analysis process used by a nationally recognized statistical rating organization. Although the Fund normally invests a substantial portion of its assets in lower-grade, high-yield debt securities, it can buy investment-grade debt securities without limit.

The Fund may also use derivatives for investment purposes or hedging, including options, futures, forward contracts, swaps and “structured” notes. The Fund actively manages foreign currency exposure, both to reduce risk and to seek to enhance return. To do so, the Fund may invest in foreign exchange derivatives, including forwards and options that reference foreign currencies, including currencies of developing and emerging market countries.

The portfolio managers analyze the overall investment opportunities and risks among the three market sectors in which the Fund invests and seek to moderate the special risks of investing in lower-grade, high-yield debt instruments and foreign securities by building a broadly diversified portfolio. The Fund’s diversification strategies are intended to help reduce share price volatility while seeking current income. The portfolio managers currently focus on securities offering high current income, securities whose market prices tend to move in different directions (to seek overall portfolio diversification), and relative values among the three market sectors in which the Fund invests. These factors may vary in particular cases and may change over time. The Fund may sell securities that the portfolio managers believe are no longer favorable with regard to these factors.

The Fund’s holdings may at times differ significantly from the weightings of the indices comprising its reference index (the “Reference Index”).

The Fund’s Reference Index is a customized weighted index currently comprised of the following underlying broad-based security indices: 40% Citigroup Non-U.S. World Government Bond Index, 30% J.P. Morgan Domestic High Yield Index, and 30% Barclays U.S. Aggregate Bond Index. The Fund is not managed to be invested in the same percentages as those indices comprising the Reference Index.

The Fund has established a Cayman Islands exempted company that is wholly-owned and controlled by the Fund (the “Subsidiary”). The Fund may invest up to 25% of its total assets in the Subsidiary. The Subsidiary invests primarily in commodity-linked derivatives (including commodity futures, financial futures, options and swap contracts) and exchange-traded funds related to gold or other special minerals (“Gold ETFs”) and Regulation S securities. Regulation S securities are securities of U.S. and non-U.S. issuers that are issued through private offerings without registration with the Securities and Exchange Commission pursuant to Regulation S under the Securities Act of 1933. The Subsidiary may also invest in certain fixed-income securities and other investments that may serve as margin or collateral for its derivatives positions. Investments in the Subsidiary are intended to provide the Fund with exposure to: (1) commodities market returns within the limitations of the federal tax requirements that apply to the Fund; and (2) Regulation S securities. The Fund applies its investment restrictions and compliance policies and procedures, on a look-through basis, to the Subsidiary. The Fund’s investment in the Subsidiary may vary based on the portfolio managers’ use of different types of commodity-linked derivatives, fixed-income securities, Gold ETFs, foreign securities, and other investments. Since the Fund may invest a substantial portion of its assets in the Subsidiary, which may hold certain of the investments described in this prospectus, the Fund may be considered to be investing indirectly in those investments.

Principal Risks

The Fund is primarily subject to risks of investing in debt securities, fixed-income market risks, risks of below-investment-grade securities, risks of sovereign debt, risks of mortgage-related securities, sector allocation risk, risks of foreign investing, risks of developing and emerging markets, Eurozone investment risks, risks of derivative investments, risks of commodity-linked investments, risks of investing in regulation s securities, risks of investments in the Fund’s wholly-owned subsidiary, and multi-manager risk.

Oppenheimer Institutional Money Market Fund

Investment Objective

The Fund seeks income consistent with stability of principal.

Investment Process

The Fund is a money market fund that invests in a variety of money market instruments to seek income consistent with stability of principal. Money market instruments are short-term, high-quality, dollar-denominated debt instruments issued by the U.S. government, domestic and foreign corporations and financial institutions, and other entities. Money market instruments include domestic and foreign bank
The Fund seeks capital appreciation.

Opportunities and Risks

The Ann Street Fund seeks capital appreciation. It is possible to lose money by investing in the Fund.

Principal Risks

All investments carry risks to some degree. The Fund’s investments are subject to changes in their value from a number of factors. However, the Fund’s investments must meet the special rules under Federal law for money market funds. Those requirements include maintaining high credit quality, a short average maturity and diversification of the Fund’s investments among issuers. Those provisions are designed to help minimize credit risks, to reduce the effects of changes in prevailing interest rates and to reduce the effect on the Fund’s portfolio of a default by any one issuer. Since income on short-term securities tends to be lower than income on longer-term debt securities, the Fund’s yield will likely be lower than the yield on longer-term fixed-income funds.

Even so, there are risks that an issuer of an obligation that the Fund holds might have its credit rating downgraded or might default on its obligations, or that interest rates might rise sharply, causing the value of the Fund’s investments to fall. Also, there is the risk that the value of your investment could be eroded over time by the effects of inflation, or that poor security selection could cause the Fund to underperform other funds that have a similar objective. If there is an unexpectedly high demand for the redemption of Fund shares, the Fund might need to sell portfolio securities prior to their maturity, possibly at a loss. As a result, there is a risk that the Fund’s shares could fall below $1.00 per share.

An investment in the Fund is not a deposit of any bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of your investment at $1.00 per share, it is possible to lose money by investing in the Fund.

The Fund is primarily subject to risks of money market instruments, fixed-income market risks, risks of foreign investing, bank obligations risk, asset-backed securities risk, risks of repurchase agreements, risks relating to investments by other Oppenheimer funds, regulatory risk and yield risk.

Oppenheimer Main Street Fund®

Investment Objective

The Fund seeks capital appreciation.

Investment Process

The Fund mainly invests in common stocks of U.S. companies of different capitalization ranges. The Fund currently focuses on “larger capitalization” issuers, which are considered to be companies with market capitalizations equal to the companies in the Russell 1000. The portfolio managers use fundamental research and quantitative models to select securities for the Fund’s portfolio, which is comprised of both growth and value stocks. While the process may change over time or vary in particular cases, in general the selection process currently uses:

- a fundamental approach in analyzing issuers on factors such as a company’s financial performance and prospects, industry position, and business model and management strength. Industry outlook, market trends and general economic conditions may also be considered.
- quantitative models to rank securities within each sector to identify potential buy and sell candidates for further fundamental analysis. A number of company-specific factors are analyzed in constructing the models, including valuation, fundamentals and momentum.

The portfolio is constructed and regularly monitored based upon several analytical tools, including quantitative investment models. The Fund aims to maintain a broadly diversified portfolio across major economic sectors by applying investment parameters for both sector and position size. The portfolio managers use the following sell criteria: the stock price is approaching its target, deterioration in the company’s competitive position, poor execution by the company’s management, or identification of more attractive alternative investment ideas.

Principal Risks

The Fund is primarily subject to risks of investing in stocks, industry and sector focus risk and risks of small- and mid-cap companies.

Principal Investment Risks of the Underlying Investments

Investing in Stocks

The value of the Fund’s portfolio may be affected by changes in the stock markets. Stock markets may experience significant short-term volatility and may fall sharply at times. Adverse events in any part of the equity or fixed-income markets may have unexpected negative effects on other market segments. Different stock markets may behave differently from each other and U.S. stock markets may move in the opposite direction from one or more foreign stock markets.

The prices of individual stocks generally do not all move in the same direction at the same time. For example, “growth” stocks may perform well under circumstances in which “value” stocks in general have fallen. A variety of factors can affect the price of a particular company’s stock. These factors may include, but are not limited to: poor earnings reports, a loss of customers, litigation against the company, general unfavorable performance of the company’s sector or industry, or changes in government regulations affecting the company or its industry. To the extent that securities of a particular type are emphasized, (for example foreign stocks, stocks of small- or mid-cap companies, growth or value
stocks, or stocks of companies in a particular industry), fund share values may fluctuate more in response to events affecting the market for those types of securities.

**Risks of Growth Investing**

If a growth company’s earnings or stock price fails to increase as anticipated, or if its business plans do not produce the expected results, its securities may decline sharply. Growth companies may be newer or smaller companies that may experience greater stock price fluctuations and risks of loss than larger, more established companies. Newer growth companies tend to retain a large part of their earnings for research, development or investments in capital assets. Therefore, they may not pay any dividends for some time. Growth investing has gone in and out of favor during past market cycles and is likely to continue to do so. During periods when growth investing is out of favor or when markets are unstable, it may be more difficult to sell growth company securities at an acceptable price. Growth stocks may also be more volatile than other securities because of investor speculation.

**Risks of Value Investing**

Value investing entails the risk that if the market does not recognize that a fund's securities are undervalued, the prices of those securities might not appreciate as anticipated. A value approach could also result in fewer investments that increase rapidly during times of market gains and could cause a fund to underperform funds that use a growth or non-value approach to investing. Value investing has gone in and out of favor during past market cycles and when value investing is out of favor or when markets are unstable, the securities of "value" companies may underperform the securities of "growth" companies.

**Risks of Small- and Mid-Cap Companies**

Small- and mid-cap companies may be either established or newer companies, including "unseasoned" companies that have typically been in operation for less than three years. While small- and mid-cap companies might offer greater opportunities for gain than larger companies, they also involve greater risk of loss. They may be more sensitive to changes in a company's earnings expectations and may experience more abrupt and erratic price movements. Small- and mid-cap companies' securities may trade in lower volumes and it might be harder for the Fund to dispose of its holdings at an acceptable price when it wants to sell them. Small- and mid-cap companies may not have established markets for their products or services and may have fewer customers and product lines. They may have more limited access to financial resources and may not have the financial strength to sustain them through business downturns or adverse market conditions. Since small- and mid-cap companies typically reinvest a high proportion of their earnings in their business, they may not pay dividends for some time, particularly if they are newer companies. Small- and mid-cap companies may have unseasoned management or less depth in management skill than larger, more established companies. They may be more reliant on the efforts of particular members of their management team and management changes may pose a greater risk to the success of the business. It may take a substantial period of time before the Fund realizes a gain on an investment in a small- or mid-cap company, if it realizes any gain at all.

**Risks of Developing and Emerging Markets**

Investments in developing and emerging markets are subject to all the risks associated with foreign investing, however, these risks may be magnified in developing and emerging markets. Developing or emerging market countries may have less well-developed securities markets and exchanges that may be substantially less liquid than those of more developed markets. Settlement procedures in developing or emerging markets may differ from those of more established securities markets, and settlement delays may result in the inability to invest assets or to dispose of portfolio securities in a timely manner. Securities prices in developing or emerging markets may be significantly more volatile than is the case in more developed nations of the world, and governments of developing or emerging market countries may also be more unstable than the governments of more developed countries. Such countries' economies may be more dependent on relatively few industries or investors that may be highly vulnerable to local and global changes. Developing or emerging market countries also may be subject to social, political or economic instability. The value of developing or emerging market countries' currencies may fluctuate more than the currencies of countries with more mature markets. Investments in developing or emerging market countries may be subject to greater risks of government restrictions, including confiscatory taxation, expropriation
or nationalization of a company’s assets, restrictions on foreign ownership of local companies, restrictions on withdrawing assets from the country, protectionist measures, and practices such as share blocking. In addition, the ability of foreign entities to participate in privatization programs of certain developing or emerging market countries may be limited by local law. Investments in securities of issuers in developing or emerging market countries may be considered speculative.

**Eurozone Investment Risks**

Certain of the regions in which the Fund invests, including the European Union (EU), currently experience significant financial difficulties. Following the recent global economic crisis, some of these countries have depended on, and may continue to be dependent on, the assistance from others such as the European Central Bank (ECB) or other governments or institutions, and failure to implement reforms as a condition of assistance could have a significant adverse effect on the value of investments in those and other European countries. In addition, countries that have adopted the euro are subject to fiscal and monetary controls that could limit the ability to implement their own economic policies, and could voluntarily abandon, or be forced out of, the euro. Such events could impact the market values of Eurozone and various other securities and currencies, cause redenomination of certain securities into less valuable local currencies, and create more volatile and illiquid markets.

**Risks of Investing in the China Fund**

The China Fund is not registered under the Investment Company Act of 1940. As an investor in the China Fund, the Fund does not have all of the protections offered to investors by the Investment Company Act of 1940. However, the China Fund is wholly-owned and controlled by the Fund and managed by OppenheimerFunds, Inc., which also serves as the Fund’s Sub-Adviser. Investments in Chinese companies involve certain risks and special considerations not typically associated with investments in U.S. companies, such as greater government control over the economy, political and legal uncertainty, currency fluctuations or blockage, the risk that the Chinese government may decide not to continue to support economic reform programs and the risk of nationalization or expropriation of assets. Additionally, the Chinese securities markets are emerging markets subject to the special risks applicable to developing and emerging market countries described elsewhere in this prospectus. Further, the China Fund may invest substantially all of its assets in a limited number of issuers or a single issuer. To the extent that it does so, the China Fund is more subject to the risks associated with and developments affecting such issuers than a fund that invests more widely.

**Risks of Other Equity Securities**

Most convertible securities are subject to the risks and price fluctuations of the underlying stock. They may be subject to the risk that the issuer will not be able to pay interest or dividends when due and their market value may change based on changes in the issuer’s credit rating or the market’s perception of the issuer’s creditworthiness. Some convertible preferred stocks have a conversion or call feature that allows the issuer to redeem the stock before the conversion date, which could diminish the potential for capital appreciation on the investment. The fixed dividend rate of preferred stocks may cause their prices to behave more like those of debt securities. If interest rates rise, the value of preferred stock having a fixed dividend rate tends to fall. Preferred stock generally ranks behind debt securities in claims for dividends and assets of the issuer in a liquidation or bankruptcy. The price of a warrant does not necessarily move parallel to the price of the underlying security and is generally more volatile than that of the underlying security. Rights are similar to warrants, but normally have a shorter duration. The market for rights or warrants may be very limited and it may be difficult to sell them promptly at an acceptable price. Rights and warrants have no voting rights, receive no dividends and have no rights with respect to the assets of the issuer.

**Risks of Investing in Debt Securities**

Debt securities may be subject to interest rate risk, duration risk, credit risk, credit spread risk, extension risk, reinvestment risk, prepayment risk and event risk. Interest rate risk is the risk that when prevailing interest rates fall, the values of already-issued debt securities generally rise; and when prevailing interest rates rise, the values of already-issued debt securities generally fall, and they may be worth less than the amount the Fund paid for them. When interest rates change, the values of longer-term debt securities usually change more than the values of shorter-term debt securities. Risks associated with rising interest rates are heightened given that interest rates in the U.S. are at, or near, historic lows. Duration risk is the risk that longer-duration debt securities will be more volatile and more likely to decline in price in a rising interest rate environment than shorter-duration debt securities. Credit risk is the risk that the issuer of a security might not make interest and principal payments on the security as they become due. If an issuer fails to pay interest or repay principal, the Fund’s income or share value might be reduced. Adverse news about an issuer or a downgrade in an issuer’s credit rating, for any reason, can also reduce the market value of the issuer’s securities. “Credit spread” is the difference in yield between securities that is due to differences in their credit quality. There is a risk that credit spreads may increase when the market expects lower-grade bonds to default more frequently. Widening credit spreads may quickly reduce the market values of the Fund’s lower-rated and unrated securities. Some unrated securities may not have an active trading market or may trade less actively than rated securities, which means that the Fund might have difficulty selling them promptly at an acceptable price. Extension risk is the risk that an increase in interest rates could cause principal payments on a debt security to be repaid at a slower rate than expected. Extension risk is particularly prevalent for a callable security where an increase in interest rates could result in the issuer of that security choosing not to redeem the security as anticipated on the security’s call date. Such a decision by the issuer could have the effect of lengthening the debt security’s expected maturity, making it more vulnerable to interest rate risk and reducing its market value. Reinvestment risk is the risk that when interest rates fall the Fund may be required to reinvest the proceeds from a security’s sale or redemption at a lower interest rate. Callable bonds are generally subject to greater reinvestment risk than non-callable bonds. Prepayment risk is
the risk that the issuer may redeem the security prior to the expected maturity or that borrowers may repay the loans that underlie these securities more quickly than expected, thereby causing the issuer of the security to repay the principal prior to the expected maturity. The Fund may need to reinvest the proceeds at a lower interest rate, reducing its income. Event risk is the risk that an issuer could be subject to an event, such as a buyout or debt restructuring, that interferes with its ability to make timely interest and principal payments and cause the value of its debt securities to fall.

Fixed-Income Market Risks

The fixed-income securities market can be susceptible to increases in volatility and decreases in liquidity. Liquidity may decline unpredictably in response to overall economic conditions or credit tightening. During times of reduced market liquidity, the Fund may not be able to readily sell bonds at the prices at which they are carried on the Fund's books and could experience a loss. If the Fund needed to sell large blocks of bonds to meet shareholder redemption requests or to raise cash, those sales could further reduce the bonds' prices, particularly for lower-rated and unrated securities. An unexpected increase in redemptions by Fund shareholders, which may be triggered by general market turmoil or an increase in interest rates, could cause the Fund to sell its holdings at a loss or at undesirable prices.

Economic and other market developments can adversely affect fixed-income securities markets in the United States, Europe and elsewhere. At times, participants in debt securities markets may develop concerns about the ability of certain issuers of debt securities to make timely principal and interest payments, or they may develop concerns about the ability of financial institutions that make markets in certain debt securities to facilitate an orderly market. Those concerns may impact the market price or value of those debt securities and may cause increased volatility in those debt securities or debt securities markets. Under some circumstances, as was the case during the latter half of 2008 and early 2009, those concerns may cause reduced liquidity in certain debt securities markets, reducing the willingness of some lenders to extend credit, and making it more difficult for borrowers to obtain financing on attractive terms (or at all). A lack of liquidity or other adverse credit market conditions may hamper the Fund's ability to sell the debt securities in which it invests or to find and purchase suitable debt instruments.

Risks of Below-Investment-Grade Securities

Below-investment-grade debt securities (also referred to as "junk" bonds), whether rated or unrated, may be subject to greater price fluctuations than investment-grade securities, increased credit risk and a greater risk that the issuer might not be able to pay interest and principal when due, especially during times of weakening economic conditions or rising interest rates. The market for below-investment-grade securities may be less liquid and therefore these securities may be harder to value or sell at an acceptable price, especially during times of market volatility or decline.

Because the Fund can invest without limit in below-investment-grade securities, the Fund's credit risks are greater than those of funds that buy only investment-grade securities.

Risks of Sovereign Debt

Sovereign debt instruments are subject to the risk that a governmental entity may delay or refuse, or otherwise be unable, to pay interest or repay principal on its sovereign debt. If a governmental entity defaults, it may ask for more time in which to pay or for further loans. There is no legal process for collecting sovereign debt that a government does not pay nor are there bankruptcy proceedings through which all or part of such sovereign debt may be collected. A restructuring or default of sovereign debt may also cause additional impacts to the financial markets, such as downgrades to credit ratings, a flight to quality debt instruments, disruptions in common trading markets or unions, reduced liquidity, increased volatility, and heightened financial sector, foreign securities and currency risk, among others.

Risks of Commodity-Linked Investments

Commodity-linked investments are considered speculative and have substantial risks, including the risk of loss of a significant portion of their principal value. Prices of commodities and commodity-linked investments may fluctuate significantly over short periods due to a variety of factors, including for example agricultural, economic and regulatory developments. These risks may make commodity-linked investments more volatile than other types of investments. Commodity-linked investments entail the risk that the Fund might not qualify as a "regulated investment company" under the Internal Revenue Code and its income may become subject to fund-level income taxes, reducing returns to shareholders.

Risks of Mid-Cap Companies

Mid-cap companies generally involve greater risk of loss than larger companies. The prices of securities issued by mid-sized companies may be more volatile and their securities may be less liquid and more difficult to sell than those of larger companies. They may have less established markets, fewer customers and product lines, less management depth and more limited access to financial resources. Mid-cap companies may not pay dividends for some time, if at all.

Industry and Sector Focus

At times the Fund may increase the relative emphasis of its investments in a particular industry or sector. The prices of stocks of issuers in a particular industry or sector may go up and down in response to changes in economic conditions, government regulations, availability of basic resources or supplies, or other events that affect that industry or sector more than others. To the extent that the Fund increases the relative emphasis of its investments in a particular industry or sector, its share values may fluctuate in response to events affecting that industry or sector. To some extent that risk may be limited by the Fund's policy of not concentrating its investments in any one industry.

**Risks of Investing in Regulation S Securities**

Regulation S securities may be less liquid than publicly traded securities and may not be subject to the disclosure and other investor protection requirements that would be applicable if they were publicly traded. Accordingly, Regulation S securities may involve a high degree of business and financial risk and may result in substantial losses.

**Risks Of Investments In The Fund's Wholly-Owned Subsidiary**

The Subsidiary is not registered under the Investment Company Act of 1940 and is not subject to its investor protections (except as otherwise noted in this prospectus). As an investor in the Subsidiary, the Fund does not have all of the protections offered to investors by the Investment Company Act of 1940. However, the Subsidiary is wholly-owned and controlled by the Fund and managed by the Manager and the Sub-Adviser. Therefore, the Fund's ownership and control of the Subsidiary make it unlikely that the Subsidiary would take actions contrary to the interests of the Fund or its shareholders.

Changes in the laws of the Cayman Islands (where the Subsidiary is organized) could prevent the Subsidiary from operating as described in this prospectus and could negatively affect the Fund and its shareholders. For example, the Cayman Islands currently does not impose certain taxes on exempted companies like the Subsidiary, including income and capital gains tax, among others. If Cayman Islands laws were changed to require such entities to pay Cayman Islands taxes, the investment returns of the Fund would likely decrease.

**Risks of Derivative Investments**

Derivatives may involve significant risks. Derivatives may be more volatile than other types of investments, may require the payment of premiums, may increase portfolio turnover, may be illiquid, and may not perform as expected. Derivatives are subject to counterparty risk and the Fund may lose money on a derivative investment if the issuer or counterparty fails to pay the amount due. Some derivatives have the potential for unlimited loss, regardless of the size of the Fund's initial investment. As a result of these risks, the Fund could realize little or no income or lose money from its investment, or a hedge might be unsuccessful. In addition, under new rules enacted and currently being implemented under financial reform legislation, certain over-the-counter derivatives are (or soon will be) required to be executed on a regulated market and/or cleared through a clearinghouse. It is unclear how these regulatory changes will affect counterparty risk, and entering into a derivative transaction with a clearinghouse may entail further risks and costs.

**Risks of Mortgage-Related Securities**

The Fund can buy interests in pools of residential or commercial mortgages in the form of "pass-through" mortgage securities. They may be issued or guaranteed by the U.S. government, or its agencies and instrumentalities, or by private issuers. Mortgage-related securities issued by private issuers are not U.S. government securities, and are subject to greater credit risks than mortgage-related securities that are U.S. government securities. Private-issuer mortgage-backed securities are also subject to interest rate risk, and the market for private-issuer mortgage-backed securities may be volatile at times and may be less liquid than the markets for other types of securities. In addition, a substantial portion of the Fund's assets may be subject to "forward roll" transactions (also referred to as "mortgage dollar rolls") at any given time, which subject the Fund to the risk that market value of the mortgage-related securities involved might decline, and that the counterparty might default in its obligations.

**Sector Allocation Risk**

In allocating investments among its three principal market sectors, the Fund seeks to take advantage of the potential lack of performance correlation between those sectors. There is the risk that the evaluations regarding the sectors' relative performance may be incorrect and those sectors may all perform in a similar manner under certain market conditions.

**Risks of Money Market Instruments**

Money market instruments may be subject to interest rate risk, credit risk, extension risk, reinvestment risk, prepayment risk, and event risk. Interest rate risk is the risk that when prevailing interest rates fall, the values of already-issued debt securities generally rise; and when prevailing interest rates rise, the values of already-issued debt securities generally fall, and they may be worth less than the amount the Fund paid for them. When interest rates change, the values of longer-term debt securities usually change more than the values of shorter-term debt securities. Risks associated with rising interest rates are heightened given that interest rates in the U.S. are at, or near, historic lows. Credit risk is the risk that the issuer of a security might not make interest and principal payments on the security as they become due. If an issuer fails to pay interest or repay principal, the Fund's income or share value might be reduced. Adverse news about an issuer or a downgrade in an issuer's credit rating, for any reason, can also reduce the market value of the issuer's securities. Extension risk is the risk that an increase in interest rates could cause principal payments on a debt security to be repaid at a slower rate than expected. Extension risk is particularly prevalent for a callable security where an increase in interest rates could result in the issuer of that security choosing not to redeem the security as anticipated on the security's call date. Such a decision by the issuer could have the effect of lengthening the debt security's expected maturity, making it more vulnerable to interest rate risk and reducing its market value. Reinvestment risk is the risk that when interest rates fall the Fund may be required to reinvest the proceeds from a security's sale or redemption at a lower interest rate. Callable bonds are generally subject to greater reinvestment risk than non-callable bonds. Prepayment risk is the risk that the issuer may redeem the security prior to the expected maturity or that borrowers may repay the loans that underlie these securities more quickly than expected, thereby causing the issuer of the security to repay the principal prior to the expected maturity. The Fund may need to reinvest the proceeds at a lower interest rate, reducing its income. Event risk is the risk that an issuer could be subject to an event, such as a buyout or debt restructuring, that interferes with its ability to make timely interest and principal payments and cause the value of its debt securities to fall.
Bank Obligations Risk

Bank obligations are subject to risks generally applicable to debt securities, as well as to the risk of negative events affecting the banking industry. Obligations of foreign banks and foreign branches of U.S. banks are subject to additional risks, including negative political and economic developments in the country in which the bank or branch is located and actions by a foreign government that might adversely affect the payment of principal and interest on such obligations, such as the seizure or nationalization of foreign deposits. Additionally, U.S. and state banking laws and regulations may not apply to foreign branches of U.S. banks, and generally do not apply to foreign banks.

Asset-Backed Securities Risk

The Fund can buy asset-backed securities, which are fractional interests in pools of loans and are collateralized by the loans, other assets or receivables. They are typically issued by trusts and special purpose corporations that pass the income from the underlying pool to the purchasers. These securities are subject to the risk of default by the issuer as well as by the borrowers of the underlying loans in the pool, and to interest rate and prepayment risks.

Risks of Repurchase Agreements

In a repurchase transaction, the Fund buys a security and simultaneously sells it back to the vendor for delivery at a future date. If the seller fails to pay the repurchase price on the delivery date, the Fund may incur costs in disposing of the collateral and may experience losses if there is any delay in its ability to do so. If the default on the part of the seller is due to its bankruptcy, the Fund's ability to liquidate the collateral may be delayed or limited.

Risks Relating to Investments By Other Oppenheimer Funds

Other Oppenheimer funds may invest all or a portion of their uninvested cash in shares of the Fund and may own a significant portion of the Fund's shares. These Oppenheimer funds may increase or reduce the amount of their investments in the Fund frequently, particularly under volatile market conditions, and in certain circumstances, such activity could require the Fund to purchase or sell portfolio securities, which may increase the Fund's transaction costs and/or reduce its performance.

Regulatory Risk

In July 2014, the SEC adopted reforms to money market fund regulation, which, when implemented, may affect the Fund's operations and/or return potential.

Yield Risk

During periods of extremely low short-term interest rates, the Fund may not be able to maintain a positive yield.

Multi-Manager Risk

The Fund's performance depends on the skill of the Manager and Sub-Adviser in selecting, overseeing, and allocating Fund assets among the Sub-Adviser and any sub-sub-advisers. The investment style of the Sub-Adviser and sub-sub-adviser(s) may not always be complementary, which could adversely affect the performance of the Fund. While the Manager and Sub-Adviser monitor the investments of a sub-sub-adviser and the overall management of the Fund, the Sub-Adviser and sub-sub-adviser each make investment decisions for the asset classes it manages independently from the other.
The State Farm College Savings Plan (the “Plan”) is available through registered representatives of State Farm VP Management Corp., One State Farm Plaza, Bloomington, IL 61710, 1-800-447-4930. Please carefully read the Enrollment Handbook and Participation Agreement and consider the investment objectives, risks, fees and expenses, and other information associated with the Plan before investing or sending money.

The Plan is sponsored by the State of Nebraska and administered by the Nebraska State Treasurer. The Plan is established in cooperation with State Farm VP Management Corp. ("State Farm"), the State of Nebraska, and OFI Private Investments Inc. ("OFIPI"), a subsidiary of OppenheimerFunds, Inc., pursuant to which State Farm offers classes of units in a series of accounts within the Nebraska Educational Savings Plan Trust (the “Trust”) that are distributed by OppenheimerFunds Distributor, Inc. ("OFDI" and together with OFIPI, "Oppenheimer"). The Trust offers other accounts that are not affiliated with the Plan.

The Nebraska State Treasurer serves as trustee of the Plan; OFIPI serves as the investment manager, with the oversight of the Nebraska Investment Council, and Servicing Agent; OFDI serves as the Plan Distributor; First National Bank of Omaha serves as the Program Manager. State Farm does not provide investment management services for the Plan.

The information presented in this document does not constitute investment, legal, or tax advice. Please consult your legal and/or tax advisor for specific information about your situation.

OFDI is a member of the Securities Investor Protection Corporation ("SIPC"). You may obtain information about SIPC, including the SIPC brochure, by contacting SIPC at 202-371-8300, or online at www.sipc.org.
