**SYSTEMATIC WITHDRAWAL - ANNUITY ONLY**

This program is only available with the Variable Deferred Annuity. It may be in effect only if annuity payments have not started. By electing the Systematic Withdrawal Program, you instruct State Farm to automatically make payments to you from your Subaccounts and Fixed Account. Starting on the beginning date and continuing at the frequency you have chosen, the withdrawals will occur on the same day of the month as the beginning date. If that date is not a Valuation Day, the withdrawal will occur on the next Valuation Day. The amount withdrawn will reduce the number of Accumulation Units on the date withdrawn. Once elected, the program remains in effect until (1) the Policy Accumulation Value is depleted, (2) you cancel the program by sending a written request or by telephoning the Securities Products Administration Department (provided your telephone authorization is on file), (3) there is an ownership change, or (4) the ending date shown on this form, if any.

Surrender charges on any systematic withdrawal will be assessed unless the amount withdrawn does not require a charge (see your policy to determine when surrender charges apply). Systematic withdrawals may be taxable, subject to withholding, and a 10% penalty tax (if taken prior to age 59 1/2).

Systematic Withdrawals will occur on the date and frequency selected, but no sooner than the date we receive the request or the presumed end of free look period. Should the beginning date fall within the free look period, the first withdrawal will occur the next date according to your frequency.
